

# India Disposable Protective Clothing Market Growing Rapidly at 15.5% CAGR with Value of \$1.43Billion by 2027

*India Disposable Protective Clothing Market is driven by increasing demand from end-user industries such as food and beverages and medical.*

PORTLAND, UNITED STATES, USA, August 16, 2021 /EINPresswire.com/ -- [India Disposable protective clothing market](#) is set to surpass USD 1.43 billion by 2027 and registering a CAGR of 15.5% from 2020 to 2027, According to the report by Allied Market Research. The report offers an in-depth analysis of changing market dynamics, top winning strategies, key investment pockets, major segments, Porter's Five Forces, and competitive scenario.

India Disposable Protective Clothing Market

Rise in demand from end-user industries such as food and beverages and medical along with strict government regulations drive the India disposable protective clothing market. However, high costs associated with production of multipurpose clothing hinder the market growth. On the other hand, surge in investments in research and development activities present new opportunities in the coming years.
