“It's imperative that companies leverage the power of today's technology in order to market their business,” explains Cassi Manner, owner of the company. “While they are specializing in offering what it is that they do, whether providing a product or service, I handle those important marketing tasks for them, which is a win-win for everyone.”

It's Manner's keen sense of marketing in today's world that has made her so successful so quickly. Not only has she used her skills to help hundreds of clients expand their reach and grow their business, but she's used also them for herself. Not only has she made Game Changer Marketing Solutions a company that quickly became successful, but she's had her own personal digital media success, too.

As a social media expert who is a freediver, she has used her digital marketing skills to blog about the best freediving in Hawaii. She has an Instagram following of over 450,000, where she also shares information about fitness, health, travel, and fashion. Being successful in promoting her own brand, she tapped into that idea in order to create an agency that would help other

companies do the same.
