

A Biotech Company, ICBII launching Digital Securities on the Tokenization Asset Platform

Tokenization Asset Platform (TAP) is delighted to announce that ICBII, a California-based pharmaceutical company, plans to tokenize & launch digital securities

NEW YORK, UNITED STATES, August 17, 2021 /EINPresswire.com/ --

[Tokenization Asset Platform \(TAP\)](#) is delighted to announce that [Innovative California Biosciences International, Inc \(ICBII\)](#), La Jolla, a California-based pharmaceutical company, plans to tokenize and launch digital securities on its disruptive platform that is revolutionizing the market.

Funds raised using the Tokenization Asset Platform by issuing digital securities will be used to fast-track FDA approval for drugs for Alzheimer's, Parkinson's, and brain cancer. This company is on the threshold of bringing drugs to market for brain diseases with no therapies available. The digital securities will be backed by the common stock of the company.

"We are thrilled and delighted to tokenize digital securities of ICB International and become a part of their success story in helping them raise capital by creating digital securities and support them in their innovative journey towards creating breakthrough solutions in the medical field," said Mr. Pramod Attarde, Chief Executive Officer, Crypto Asset Rating Inc. "With TAP, ICB International can raise capital to develop technologies to treat diseases, grow their business, and achieve many milestones. ICB International is a true pioneer in the Biotechnology industry, and we are happy to help them in tokenizing their digital securities".

"The antibody mimics that ICBII has developed a platform technology that can impact several

The advertisement features the Crypto Asset Rating logo in the top right corner. The central text reads "WE BELIEVE DIRECTION IS MORE IMPORTANT THAN SPEED" in large, bold letters. Below the text is an illustration of a man in a white shirt and tie sitting on a large red arrow that points downwards and then turns to the right. The background is light gray with diagonal lines. At the bottom, there is a red banner with contact information and a disclaimer.

other neurological and medical disorders," says Dr. Ram Bhatt, Founder and Chief Scientist.

"As a physician, I feel privileged to be a part of ICBII in developing treatments for disease for which there was nothing to offer." Said Dr. Ranya Alexander, COO .

Through Tokenization Asset Platform (TAP), companies can tokenize their assets and provide liquidity and fractionalized ownership to investors worldwide. TAP offers the process of creating, issuing, managing, and converting an asset to tokenized securities. TAP leverages blockchain technology to fractionalize ownership of equities, bonds, shares, and commercial/residential real estate. By tokenizing the ownership of an asset or backing the value of a token with a real-world asset opens access to a broader pool of investors.

TAP is transforming asset ownership by converting it to tokenized securities. With a legally compliant platform, TAP helps small and medium businesses to raise funds and welcomes small investors to legally own a portion of an asset with greater asset liquidity and market accessibility.

Tokenization Asset Platform uses Ethereum Blockchain technology to issue digital securities to increase transparency and immutability. It also offers other distinct benefits like high liquidity and fractional ownership, leading to higher inclusiveness of retail investors, reduced costs, and faster settlement, and all these benefits are achieved on a legally compliant platform.

The advertisement features a hand holding a glowing blue digital tablet with various financial icons (like a pie chart, a bar chart, and a dollar sign) and arrows pointing upwards. The background is a dark blue with a grid pattern.

The emergence of Tokenization is changing the fundamental way people trade, invest, and own assets. By significantly reducing the friction involved in trading and transferring ownership, Tokenization brings excellent benefits for both investors and sellers. The process of Tokenization will make the financial industry more transparent, efficient, accessible, easier, faster, and cheaper and will unlock a massive amount of illiquid assets and offer more liquidity to businesses

About Crypto Asset Rating Inc
Crypto Asset Rating Inc is driven to plug the gaps in the crypto market and bridge the governance institutions with the crypto industry and new thought leaders.

Crypto Asset Rating Inc believes in solving the FinTech Industry's key challenges. Our Independent Structured Rating Platform comprehensively rates crypto assets for Institutional and Retail Clients. The company developed a custom rating algorithm to conduct an exhaustive multi-layered evaluation covering four risk buckets—business, financial, legal, and technology.

[Crypto Business World](#) - The Company's quality media platform for all updates in the crypto market.
