BRIAN HARRIS CEO OF MEDRHYTHMS

Brian Harris is a passionate and motivated leader and entrepreneur who strives to make the world a better place by helping others. Brian discovered his love for music and the brain in college and was inspired to receive his master's in Music Therapy. MedRhythms is a digital therapeutics company that uses sensors, music, and software to build evidence-based, neurologic interventions to measure and improve walking.”

World Biz Magazine

Brian is a founding member of the Arts and Neuroscience Group at the American Congress of Rehabilitation Medicine, which provides a platform for clinicians, researchers, and artists to advocate and collaborate on

topics related to the clinical application of the arts in neurorehabilitation. In 2015, Brian founded MedRhythms' clinical division at Spaulding Rehabilitation Hospital, the No. 2 rehabilitation

hospital in the country, according to the U.S. News & World Report, in Boston, Massachusetts and built this program to be the most comprehensive program of its kind in the country. Under Brian's leadership, MedRhythms pivoted to digitize this therapy in a scalable, digital therapeutics system that could be used in the comfort of patients' homes without the need for a Neurologic Music Therapist. MedRhythms is now dedicated to building scalable solutions that use prescription music to provide people across the world suffering from the effects of neuro-logic injury or disease with the care that they desperately need and deserve.
