MEMPHIS, TN, UNITED STATES, August 17, 2021 /EINPresswire.com/ -- Today

Inc. magazine revealed that [Data Facts](#), a provider of national and international background screening solutions, has ranked on the annual Inc. 5000 list, which is considered to be the most prestigious ranking of the nation's fastest-growing private companies.

“

Congratulations to all the winners and a HUGE thank you to our entire team because this is, indeed, your success.”

Daphne Large, Data Facts CEO

The Inc. 5000 list represents a unique look at the most successful companies within the American economy's most dynamic segment; privately held businesses. Intuit, Zappos, Microsoft, Patagonia, and many other well-known names gained their first national exposure as honorees on the Inc. 5000.

[Daphne Large](#), Founder and CEO of Data Facts, graciously comments on their ranking. “Founding and leading Data

Facts for 32 years has been the honor and joy of a lifetime. We are grounded in our foundation that if we take great care of our people, they will take great care of our customers who in turn will take great care of Data Facts. They do and it works. This has never been more demonstrated nor appreciated than now, as we celebrate being named #2818 to the Inc. 5000 fastest growing company list. Congratulations to all the winners and a HUGE thank you to our entire team because this is, indeed, your success.”

The companies on the 2021 Inc. 5000 have been competitive within their markets, but this year's list also proved especially resilient and flexible given 2020's unprecedented challenges. Among the 5,000, the average median three-year growth rate soared to 543 percent. Together, those companies added more than 610,000 jobs over the past three years.

“The 2021 Inc. 5000 list feels like one of the most important rosters of companies ever compiled,” says Scott Omelianuk, Editor-In-Chief of Inc. “Building one of the fastest-growing

companies in America in any year is a remarkable achievement. Building one in the crisis we've lived through is just plain amazing. This kind of accomplishment comes with hard work, smart pivots, great leadership, and the help of a whole lot of people."
