“They also appreciate their appearance,” he adds. “It is hard to tell when a patient is wearing them.”

Invisalign must be worn for at least 20 to 22 hours per day to be successful. When patients visit Exeter Orthodontics, they'll be fitted for new aligner trays to keep their treatment on track.

Traditional [braces in Reading](#) are also available for only \$3,995. Metal braces remain the most successful orthodontic treatment to date and can help align more complex bite issues.

During a free consultation, Dr. Pardini and his team will help patients decide whether braces or Invisalign are best for them. There are several differences between the two, but there will always be one constant: an all-inclusive price.
