it. Thankfully, vaccinations are getting to people across the globe, albeit all-too-slowly, and at least preventing serious disease in most people that receive them.

But children cannot receive vaccinations yet and for them masks and clean hands are the best protections. Our WATCHOUT [KIDS BANDs](#) make it easier and much more fun for them to sanitize their hands whenever, wherever they need to.

For adults, our WATCHOUT BANDS offer the ultimate convenience for people on the go.

Our WATCHOUT [SMARTCOVER](#) is the worlds' first phone & tablet cover that automatically sanitizers your screen with powerful UVC LED's, when you close it. It can also be used to sanitize other objects, is powered by a battery that can recharge your phone and on the outside is impregnated with an antimicrobial that will kill viruses and bacteria.

And our WATCHOUT WAND is the worlds' first combined UVC light and fine mist atomizer to clean any type of surface including many that can't easily be wiped.

WATCHOUT is dedicated to creating a range of unique, cutting-edge products for the challenges of a new world.
