*The Business Research Company's
Strategy Advisory Global Market Report
2021: COVID 19 Impact And Recovery To
2030*

LONDON, GREATER LONDON, UK,
August 23, 2021 /EINPresswire.com/ --
According to the new market research
report 'Strategy Advisory Global Market
Report 2021: COVID-19 Impact And

Recovery To 2030' published by The Business Research Company, the strategy advisory market is expected to grow from \$1.46 trillion in 2020 to \$1,64 trillion in 2021 at a compound annual growth rate (CAGR) of 12.9%. The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$2.51 trillion in 2025 at a CAGR of 11.1%. The growing number of startups across industrial and financial sectors is expected to fuel the demand for the strategy advisory market.

Strategy Advisory Global Market Report 2021: COVID
19 Impact And Recovery To 2030

Narrative Science, a technology company, the number of companies implementing artificial intelligence within the space of one year nearly doubled with an increase from 38% to 61%. Of these companies, a quarter uses AI for predictive analytics and 22% use it for machine learning. Artificial intelligence and the future of strategic advising and its effect on consultancy firms are positive, and if harnessed correctly, artificial intelligence could significantly accentuate how these firms govern as well as the services they provide to clients.
