

# Global Tubular Membrane Market is Growing at a Healthy CAGR of 7.4% during the Forecast Period 2020 to 2027

---

*Tubular Membranes Market is expected to grow from USD 0.78 billion in 2019 to USD 1.38 billion by 2027, at a CAGR of 7.4% during the forecast period 2020-2027.*

NEWARK, UNITED STATES, NEW JERSEY, August 25, 2021 /EINPresswire.com/ -- A new research report published by Fior Markets with the title [Tubular Membrane Market](#) By Type (Membrane Bioreactor, Reverse Osmosis, Micro Filtration, Nano Filtration, And Others), End-User Applications (Chemicals & Petrochemicals, Energy & Power, Food & Beverage, Leather, Textiles And, Pharmaceuticals), Region, Global Industry Analysis, Market Size, Share, Growth, Trends, And Forecast 2020 To 2027.

The global tubular membranes market is expected to grow from USD 0.78 billion in 2019 to USD 1.38 billion by 2027, at a CAGR of 7.4% during the forecast period 2020-2027. Asia-Pacific is the most dominant player region-wise, and it is also expected to lead this market in the future. Factors like urbanization, growing population, an increasing number of industries, and a large number of coal industries and thermal power plants present in India and China is driving the growth of this market. North America is the second-largest market, and it is anticipated to grow at a significant growth rate owing to urbanization and a growing number of industries.

Some of the key players in the tubular membrane market are Porex Corporation, Pentair Plc, Plansee, PCI Membranes, Berghof Membrane Technology GmbH, Spintek Filtration Inc., Dynatec Systems Inc, Microdyn-Nadir GmbH, Duraflow LLC, and Hyflux Ltd.

This study delivers a comprehensive analysis of types, end-user applications, and regions. The type segment includes membrane bioreactor, reverse osmosis, micro-filtration, nano-filtration, and others. The reverse osmosis sector accounts for the largest market share owing to its use in the zero liquid discharge and growing demand for ZLD systems. Based on end-user applications, this market is segmented into chemicals & petrochemicals, energy & power, food & beverage, leather, textiles and, pharmaceuticals. Energy and power are the largest segments because water is extensively used in power and energy-generating industries; therefore, tubular membranes find the application here, and this is fuelling the growth in this segment.

In 2018 Aquaporin A/S and Berghof Membranes announced they had entered into a merger in for the commercialization of tubular forward osmosis membrane technology. This merger would help the food and beverage industry to dispose of wastewater that is chemical-free.

As the environmental pollution is rising people are becoming more aware, and the governments have made stringent rules & regulations regarding wastewater disposal from various industries which are having a positive effect on the tubular membrane market.

About the report:

The global tubular membranes market is analyzed on the basis of value (USD Billion), volume (K Units), export (K Units), and import (K Units). All the segments have been analyzed on a global, regional, and country basis. The study includes an analysis of more than 30 countries for each segment. The report offers an in-depth analysis of driving factors, opportunities, restraints, and challenges for gaining key insight into the market. The study includes porter's five forces model, attractiveness analysis, raw material analysis, and competitor position grid analysis.

Customization of the Report:

The report can be customized as per client requirements. For further queries, you can contact us on [sales@fiormarkets.com](mailto:sales@fiormarkets.com) or +1-201-465-4211. Our executives will be pleased to understand your requirements and offer you the best-suited reports.

About Fior Markets

Fior Markets is a futuristic market intelligence company, helping customers flourish their business strategies and make better decisions using actionable intelligence. With a transparent information pool, we meet clients' objectives, commitments on high standard and targeting possible prospects for SWOT analysis and market research reports. Fior Markets deploys a wide range of regional and global market intelligence research reports including industries like technology, pharmaceutical, consumer goods, food and beverages, chemicals, media, materials and many others. Our Strategic Intelligence capabilities are purposely planned to boost your business extension and elucidate the vigor of a diverse industry. We hold distinguished units of highly expert analysts and consultants according to their respective domains. The global market research reports we provide involve both qualitative and quantitative analysis of the current market scenario as per the geographical regions segregated and comprehensive performance in different regions with a global approach.
