

Glass Curtain Wall Market Size, Upcoming Trends and Growth Overview, Research Report Forecast by 2021-2027

With process of development & migration of people need for façade systems from residential construction sector has significant factor governing growth of market

NEW YORK CITY, NY, UNITED STATES,
August 25, 2021 /EINPresswire.com/ --
The global [Glass Curtain Wall Market](#) is forecast to reach USD 97.05 Billion by

Reports And Data

2027, according to a new report by Reports and Data. Glass curtain wall systems provide additional structural stability for buildings, and protect them against high winds and geological conditions. By preserving the exterior of the buildings from wind and rain, these curtains can reduce the risk of damage to the exterior surfaces. They enhance the appearance of buildings to construct a façade with aesthetic pleasure. Moreover, these installations can add a layer of insulation that can increase the energy efficiency of the structures. Curtain walls also provide added protection against the spread of fire, especially in high-rise developments.

The increasing construction activities across the globe, coupled with the rising population and changing lifestyles are propelling the growth of the market. Rapid urbanization will also drive the demand for glass curtain walls during the forecast period. With the process of development and the migration of people, the need for façade systems from the residential construction sector has been a significant factor governing the growth of the market.

Key participants include EFCO Corporation, Alumil aluminium industry S.A., HansenGroup Ltd., GUTMANN AG, National Enclosure Company, Kawneer Company, Inc., Ponzio Srl, Sapa Building Systems Ltd., Josef Gartner GmbH, Kawneer Company, Inc., Shenyang Yuanda Aluminium Industry Engineering Co., Ltd, HUECK System GmbH & Co. KG, and Schüco International, Simplex Curtain Walls LLC, ROCKWOOL, Wausau Window & Wall Systems, and Glasscon GmbH., among others.

Further key findings from the report suggest

- The double glazing account for the largest market share of ~44% in the year 2019, owing to its lower cost, efficiency, and noise reduction properties. The triple is anticipated to witness the highest CAGR of 9.0% during the forecast period, attributed to their better thermal transmittance, which allows a lower rate of heat transfer.
- The unitized wall products account for the largest market share of ~46% in the year 2019. The unitized walls are accumulated with waterproof, shock-proof, and heat insulating material, in advance in the factory, and then transported by specialized vehicles at the construction site. The assembly is then lifted on-site to form a glass curtain wall that is directly integrated with the building structure.
- The quality of the unitized glass curtain wall is relatively easy to control, and waterproof. It can accommodate the displacement of larger structures, and its construction is quite simple, fast, and well managed.
- The Asia Pacific region held the largest market share of ~31% in the year 2019 and is anticipated to witness the highest CAGR of 9.4% during the forecast period. The market in the region is dominated by China, owing to high expenditure on infrastructure and construction projects. The growing population has led to an increase in residential construction activities, which contributes to the increasing demand for curtain walls. Moreover, the presence of some of the major players of the market has also positively influenced the market growth.
- The companies have adopted various strategies, including mergers, acquisitions, and partnerships to hold ongoing trails and come up with new developments in the market.

For this report, Reports and Data have segmented into the global glass curtain wall market on the basis of product type, glazing type, end-user, and region:

Product Type Outlook (Volume, Kilo Tons and Revenue, USD Million; 2017-2027)

Stick-built

Semi-unitized

Unitized

Glazing type Outlook (Volume, Kilo Tons and Revenue, USD Million; 2017-2027)

Double

Double low-e

Double gas-filled

Double low-e, gas-filled

Triple

Triple low-e

Triple gas-filled
Triple low-e, gas-filled
Others

End-User Outlook (Volume, Kilo Tons and Revenue, USD Million; 2017-2027)

Residential
Commercial
Public
Others

Regional analysis covers assessment of import/export, production and consumption ratio, supply and demand, cost, price, estimated revenue and gross margins, and presence of key players in the region. The report also offers insights about revenue growth, market size, market share, technological advancements, and presence of key players in each region.
