Readers will be itching to find out if Sally succeeds in her quest. Will she meet either Mr Right or

Mr. Alright and get her visa? Or does a different future await her?

"While I was travelling in Australia over a period, I met a wide variety of different people and heard masses of stories about people's experiences. Some of these included bizarre stories of people who had actually married an Australian- deliberately in an arranged marriage. Some had happy endings and some not so. These stories and adventures, inspired me to start writing them down while I was in Australia, and as I started to write I came up with the plot for my book, 'Kangaroos and Champagne,'" Day says, explaining the inspiration for her story.

Rom-com aficionados will appreciate this story, with its servings of humor, a touch of sex, and a healthy dose of escapism that can also serve as a travel guide for the Land Down Under.
