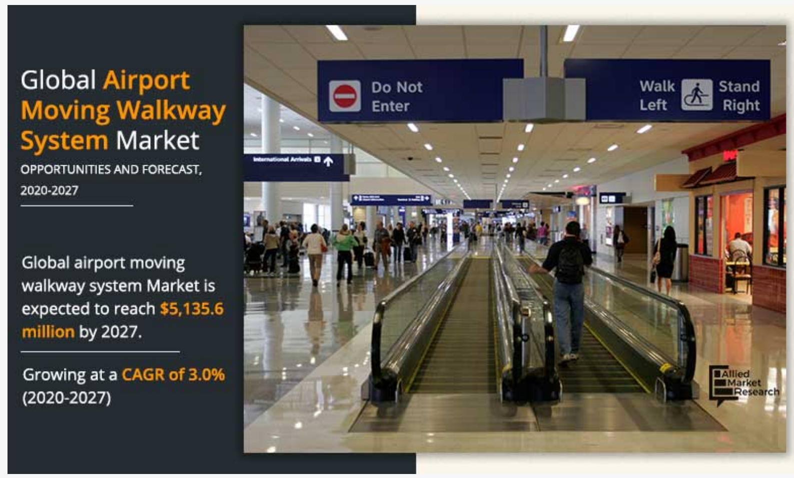
# Airport Moving Walkway System Market Projected to Reach $5,135.6 Million by 2027

*There is an increase in the airport moving walkway system industry due to the growth in a number of air travelers at a particular airport.*



PORTLAND, OR, UNITED STATES, August 26, 2021 /EINPresswire.com/ -- Moving walkway or moving side walk is a transport system that uses conveyor. The moving walkways move people safely and slowly over a short distance along the ground level or inclined between two floors of the building. These are also called as travelators. Escalators and walkways have similar applications. People walk or stand on the conveyor and it starts to roll.

The global airport moving walkway system market size accounted for $4,155.6 million in 2019 and is expected to reach $5,135.6 million by 2027, registering a CAGR of 3.0% from 2020 to 2027.
