ATLANTA, GEORGIA, USA, August 26, 2021

/EINPresswire.com/ -- The fragility of the mind is a new understanding for many people. With lockdown measures still in place many people's minds are beginning to be the first caving point. [Metaphysics](#) is the study of many components of being, self identity, change, space and time. It is a starting point to embracing positive change in one's life.

Florence Scovel Shinn was an artist and metaphysician who focused on words of affirmation and positive thinking with well known books such as, "The Game of Life and How to Play It" and "Your Word is Your Wand". She began teaching through "treatment" which could be described as affirmative prayers to assist those who were coming to see her for a certain urgent desire.

[Elizabeth Clyde](#) is a prominent business woman, model, and Links debutante with a degree in Psychology. In her most recent book, "What the Video Vixens of 2008 Taught Me" she focuses on using metaphysics to hold one's self accountable as well as to progress in the entertainment industry as a woman. Clyde has also been a ghostwriter for over 11 years with her clients appearing on Forbes, CNN, Rolling Out, and ESPN. She has performed in two Russian Nutcrackers and has formerly lived in Paris, a magical city.

“

No matter what people tell you, words and ideas can change the world.”

Robin Williams

Napoleon Hill was a leader before his time being taught by Andrew Carnegie and W. Clement Stone the power of using

one's mastermind. We categorize Hill as a metaphysician because his ability to transform his audiences present circumstances was through using mind power. Hill identified the mastermind as one of the most powerful tools required in order to obtaining the master key which one desires.

[Jeral Clyde](#) II started his life in the projects of Atlanta determined not to remain there he took an interest in film.
