The full examination of spruce tree resin plus gum and its benefits can be found in Dr. Ingram's new book "Natural Cures from Wild Tree Resin." Some of the health benefits SpruceAlive can provide include:

“

In the SpruceAlive formulation, we leave it just as GOD made it, never altering the natural medicine with heat or harsh solvents.”

Dr. Cass Ingram, The Wilderness Doctor

- Support a healthy overall skin response
- Support a healthy digestive and intestinal health response
- Support healthy energy, strength, and internal power response
- Support a healthy inflammation response
- Support a healthy immune response
- Support a healthy wound healing and scar tissue response,
- Support a healthy prostate response

- Support a healthy blood pressure and cardiac health response

“We know the real power - the ultimate results – are found in remote, wild nature. Nothing can compare or match it. In the SpruceAlive formulation, we leave it just as GOD made it, never altering the natural medicine with heat or harsh solvents,” said Dr. Ingram. “It provides vital force like no other natural medicine known. Use it to energize all cells and support a natural and healthy whole-body response.”*

One great power of SpruceAlive covered by Dr. Ingram relates to its regenerative powers. Studies show that it has the capacity to cause tissue regeneration, especially in the skin and epithelial tissues. Taken as drops under the tongue or applied topically it can aid in supporting healthy tissue regeneration and wound healing response.

“I heard Dr. Cass on the radio and while I thought that his claims were wild nonetheless I bought 1 bottle of SpruceAlive because I have prostate issues around voiding and weak stream and have taken Flowmax for these issues in the past but did not like the side effects so I have been suffering. However, after just one, that is right-one, one dose of SpruceAlive my prostate issues are now gone. Gone. Now, you can tell from my email address I am a Harvard graduate but you don't have to be a Harvard graduate to know that this is too good to be true product, really is good. Thanks Dr. Cass,” said user N.H.
