

SecureCo Joins the McAfee Enterprise Security Innovation Alliance

SecureCo Aligns With a Select Group of Industry Leaders to Bring McAfee Enterprise Customers Obfuscated Data-in-Transit

NEW YORK, NEW YORK, USA,
September 7, 2021 /EINPresswire.com/

-- [SecureCo](#), Inc. ("SecureCo," the "Company," "we," "our" or "us"), which offers protected and resilient data-in-transit cybersecurity leveraging stealth, deception, and obfuscation, today announced that it had joined the

[McAfee Enterprise Security Innovation Alliance](#) ("SIA"). SecureCo will be integrating its CONNECT product with the McAfee Enterprise ePolicy Orchestrator (ePO) and the MVISION Cloud CASB solution. With this integration, SecureCo CONNECT will be able to provide McAfee Enterprise customers with obfuscated internet data routing between their protected device endpoints and secure cloud services.

“

SecureCo is excited to integrate our CONNECT capabilities into McAfee Enterprise's industry leading endpoint and cloud security solutions”

*Alex Harrington, co-founder
and CEO of SecureCo*

McAfee Enterprise SIA is the security industry's most open partner ecosystem empowering customers to deploy technologies that facilitate faster innovation cycles, build a coordinated, unified defense, and deliver security-based business outcomes. SecureCo will be an important contributor joining McAfee Enterprise in furtherance of a new era in security where all components come together to work as a single cohesive system, regardless of vendor or underlying architecture.

“SecureCo is excited to integrate our CONNECT capabilities into McAfee Enterprise's industry leading endpoint and cloud security solutions,” said Alex Harrington, co-founder and Chief Executive Officer of SecureCo. “With the addition of our data-in-transit security solution, McAfee Enterprise customers will benefit not only from our multiple layers of encryption, but also from obfuscated connections designed to camouflage data transmissions between endpoints and the

SecureCo, Inc.

cloud, avoiding detection and interception.”

“We are pleased to add SecureCo to the select list of Technology Partners in the McAfee Enterprise Security Innovation Alliance program,” said Javed Hasan, Global Head of Enterprise Products Strategy and Alliances, McAfee Enterprise. “Once integrated, our joint solution will drive important new security workflows for both U.S. federal and enterprise customers, a key goal of the SIA program.”

ABOUT SECURECO, INC.

SecureCo offers exceptional protection and resiliency for data traversing the internet. Unlike most data-in-transit security offerings, SecureCo uses both fortification and stealth, adding valuable diversity to client defense strategies. Our platform-as-a-service routes data over a zero trust mesh network using deception, obfuscation and misattribution, to not only cryptographically secure sensitive comms, but to hide the very existence of the transmission. SecureCo solutions are targeted for government and enterprise applications for mobile and remote access, IoT, secure facilities and critical infrastructure.
