

# Wall-Smart Wins CE Pro Best Award for Mounting Solution Designed to Make Ruckus Access Points Disappear

*Wall-Smart's innovative concealment technology designed, engineered, & fabricated exclusively for Ruckus APs receives prestigious Best Product award from CE Pro*

BUFFALO, NY, UNITED STATES, September 1, 2021 /EINPresswire.com/ -- [Wall-Smart](#), the leading manufacturer of innovative mounting hardware that conceals a wide variety of smart devices flush with wall and ceiling surfaces, has been honored with a [CE Pro](#) Best Product award for its Flush

Mount for [Ruckus](#) Access Points. The mounting solution enables select Ruckus access points to be mounted within the ceiling surface, rendering the devices imperceptible. Thanks to this mount, devices that once protruded from the ceiling can now blend seamlessly with the ceiling surface and without any compromise in performance.

“

We are honored to be recognized by CE Pro for our Flush Mount for Ruckus AP. Making technology disappear or blend in pleasingly with the home design is the philosophy on which Wall-Smart was conceived”

*Wall-Smart Co-CEO and Founder Galia Ben-Dor*

Wall-Smart's award-winning product will be posted to CEPro.com and profiled in the November issue of CE Pro magazine, as well as via social media platforms.

Selected by a panel of judges, including CE Pro editors and industry leaders, for its exceptional level of innovation, functionality, competitive advantages, and benefits to the integration community, the Flush Mount for Ruckus Access Points gives integrators a more eye-pleasing alternative to placing access points on countertops or surface mounting them to the wall or ceiling.

“We are honored to be recognized by CE Pro for our Flush Mount for Ruckus Access Points, a

product that was developed specifically to provide home systems integrators an eye-pleasing alternative to placing access points on countertops or mounting them directly to wall and ceiling surfaces where they stand out like a sore thumb,” says Wall-Smart Co-CEO and Founder Galia Ben-Dor.

“Making technology disappear or blend in pleasingly with the home design is the philosophy on which Wall-Smart was conceived and on which we base every product we develop. We think every home should be as beautiful as it is smart, and our vast portfolio of concealment solutions allows systems integrators, builders, architects, and designers to achieve this objective with ease and simplicity.”

Adds CE Pro executive editor Arlen Schweiger, “2021 has been a year like no other. As we have all spent more time than ever in our homes, the value of solutions for wellness as well as

comfort and entertainment is clear. Homeowners rely on integrators to identify and install the right solutions to meet their needs. The Best Awards recognize the companies that are developing these innovative technologies and elevating the home experience.”
