

The Mesothelioma Options Help Center of Alabama Endorses The Steinberg Law Group as the Best Mesothelioma Law Firm

The Mesothelioma Options Help Center of Alabama Endorses The Steinberg Law Group as the Best Mesothelioma Law Firm - Experience/Resources/Results

DOTHAN, ALABAMA, USA, August 29, 2021 /EINPresswire.com/ -- The [Mesothelioma](#) Options Help Center of Alabama is dedicated to providing the best possible legal and medical assistance to those stricken with mesothelioma or [asbestos](#)-related lung cancer. Anyone wishing to discuss their legal and/or medical options should call (888) 891-2200 to speak directly with an attorney from The [Steinberg](#) Law Group.

Asbestos was used in the construction industry for decades.

The Mesothelioma Options Help Center of Alabama has endorsed The Steinberg Law Group because of their vast experience in handling mesothelioma and other asbestos-related cases. With offices in New York, California and Texas, The Steinberg Law Group has a national footprint that helps win the best possible financial compensation for clients.

Typically, asbestos exposure will have occurred sometime between the 1950s and the 1980s. Some of the most prevalent professions that encountered large quantities of asbestos include power plant workers, maritime workers, industrial workers, plumbers, pipefitters, electricians, mechanics, machinists, miners, railroad workers and construction workers, to name a few. Since the latency period for mesothelioma patients is approximately 40 years, most people diagnosed with mesothelioma or asbestos-related lung cancer in 2021 were exposed decades ago.

Although Alabama contains a few naturally occurring asbestos deposits in the Appalachian Mountains, asbestos exposure in Alabama predominately occurs in industrial settings such as manufacturing and construction jobsites. Residents of Alabama should also be aware of the risks

of asbestos exposure that occur after natural disasters, such as the Tuscaloosa Tornadoes of April 2011, which was one of the largest documented incidences of asbestos exposure in United States history.

Jobsites and locations with known asbestos exposure in Alabama include, but are not limited to, Browns Ferry Nuclear Plant, Dothan Powerhouse, Alabama Power Plant, MacIntosh Steam Generating Plant, Gadsden Steam Plant, Colbert Steam Plant, Chicasaw Steam Plant, Childersburg Power Plant, Coosa Pines Plant, Gaston Power Plant, Wilsonville Power Plant, Barry Steam Plant, Cold Creek Plant, Miller Steam Plant, Green County Steam Plant, Segco Steam Plant, Farley Nuclear Plant, Courtaulds Chemical Plant, Gunns Power Plant, Von Braun Center, Coastal Mobile Refinery, Blakeley Island Refinery, Gulf Shipyard, Avondale Shipyard, Bethlehem Steel Shipyard, Maritime Shipyard, Mobile Shipyard, Auburn University, Bessemer Pipe Plant, Birmingham Hospital, New Providence Hospital, Brice Building, Marion County Nursing Home, St. Margaret Hospital, Doctors Hospital of Mobile, Talladega College, Tuskegee Hospital, Tutwiler Hotel, University of Alabama, J. Graham Brown Educational Center, James River Paper Mill, American Can Paper Mill, Kimberly Clark Paper Mill, St. Bernard College, Fruehauf Trailer Plant, National Fertilizer Development Center, TVA Wilson Dam, Boaz Mills, Marshall Space Flight Center, Brookley Industrial Complex, Mobile Regional Airport, Mobile General Hospital School of Nursing, Providence Infirmary, Sanders Old Cotton Mill, St. Regis Paper Mill, Standard Equipment Company, Stone Container Corporation, Watermans Shipyard, Alabama College, Alabama State University, Normandale Shopping Center, Tuskegee Institute, James River Paper Mill, Gorgas Power Plant, Prattville Paper Mill, Bellefonte Nuclear Plant, New Vaughn Memorial Hospital, Selma Paper Mill, Widows

Inhaling one fiber of asbestos is enough to cause mesothelioma decades later.

We support our veterans.

Creek Power Plant, University of Alabama and Wilson Memorial Hospital.
