Igor Vasiliadis QUOTE "I love the equipment and technologies, which were proven by centuries of practice, those employing long exposures. This allows model's soul to break out from the momentary world of emotions and appear in all of its multifaceted beauty. Dark tonality, artifacts of drying emulsion and all the mystics brought by silver and cyanides create the world of mystery, covered from our eyes by temporary and momentary emotions. They can be seen only during rear momentary lapses of reason, when we drop out of reality".
