SuiteSpot Partners with MRI Software

"We are excited to partner with MRI Software. The collaboration is part of our commitment to work with leading proptech solutions in the area of property management," explains Elik Jaeger, CEO of SuiteSpot Technologies. "Enabling SuiteSpot TRIMM™ to plug directly into existing property management solutions, such as MRI Software, allows property and asset managers to capture a wider and deeper level of insight and data regarding capital expenditures associated with unit turnovers and maintenance processes, ultimately optimizing and enhancing assets and staff performance".

"MRI's partnership with SuiteSpot Technology will provide immense value to current and future clients looking to optimize their residential management processes, including tenant onboarding, turnover, preventative maintenance and service management," said Sean Slack, vice

president of partnerships at MRI Software. “This is the latest example of our open and connected ecosystem empowering clients to choose the solution that best meets their needs and improves the customer experience.”

[IMT Residential](#) is a long-standing MRI Software client that recently rolled out SuiteSpot TRIMM™ nationwide to streamline their maintenance processes. IMT Residential is a multifamily residential investment and property management firm that owns and manages over 17,000 units in eight states. “IMT strives to be America’s best apartment operator and solutions like SuiteSpot TRIMM™ allow us to fulfill that commitment by ensuring our operations and maintenance processes are optimized for efficiency,” explained Joseph Elhabr, VP of Operations at IMT Residential. “This benefits all stakeholders, specifically our maintenance staff, property managers, and asset managers. Streamlining our turnover and maintenance enables those business processes to perform faster with less reliance on people - ultimately making all parties involved in these processes more productive”.
