

Enterprise File Synchronization And Sharing (EFSS) Market Grows At Rate Of 29% With Increasing Data Security Concerns

The Business Research Company's Enterprise File Synchronization And Sharing (EFSS) Global Market Report 2021 - COVID-19 Implications And Growth

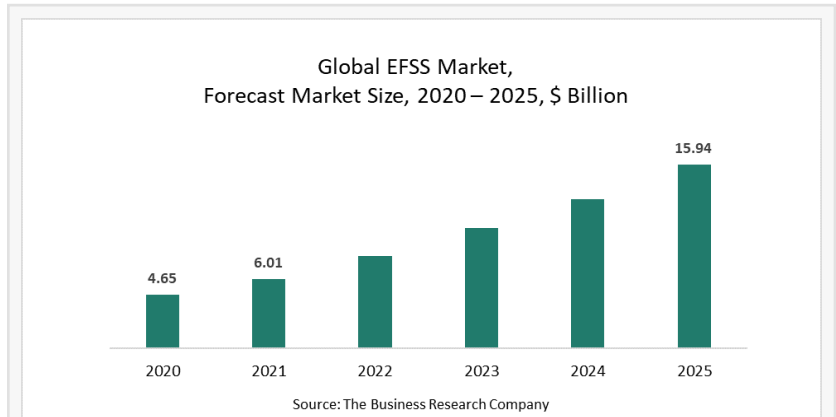

LONDON, GREATER LONDON, UK, September 1, 2021 /EINPresswire.com/ -- Increasing data security concerns are expected to drive the growth of the enterprise file synchronization and sharing market in the coming years.

Data security is a crucial aspect of a complete security plan that includes recognizing, evaluating, and mitigating threats connected to sensitive data security. Many businesses are concerned about the security of their digital data. To safeguard the data, [enterprise file-synchronization and sharing \(EFSS\) platforms](#) integrate security features such as authentication, data encryption, containerization, and tracking. According to IBM's 2020 Cost of a Data Breach Report, data breach occurrences cost \$8.64 million, the highest in the world, followed by the Middle East at \$6.52 million. Furthermore, in 2021, Marriott International reported that hackers gained access to 5.2 million records including personal data of visitors through employee login information at one of their franchise facilities.

North America was the largest region in the enterprise file synchronization and sharing market in 2020. Asia Pacific is expected to be the fastest-growing region in the forecast period. The regions covered in this report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, and Africa.
