

# Global Insulin Pens, Syringes, Pumps And Injectors Market Trends, Strategies, And Opportunities In The Market 2021-2030

*The Business Research Company's Insulin Pens, Syringes, Pumps And Injectors Global Market Report 2020-30: Covid 19 Implications And Growth*

LONDON, GREATER LONDON, UK, September 1, 2021

/EINPresswire.com/ -- According to the new market research report

[‘Insulin Pens, Syringes, Pumps And Injectors Global Market Report](#)

[2020-30: COVID-19 Implications And Growth’](#) published by The Business

Research Company, the insulin pens, syringes, pumps and injectors

devices and equipment market is expected to grow from \$16.1 billion in

2019 to \$17.8 billion in 2020 at a compound annual growth rate (CAGR)

of 10.7%. The growth is mainly due to the COVID-19 outbreak as people

with diabetes are at increased risk of serious illness from COVID-19. The

diabetic care devices are increasingly being used by care providers and

patients (self-monitor) to frequently check the blood glucose levels. FDA

issued guidance to expand the availability and capability of non-

invasive remote monitoring devices including continuous glucose

monitors (CGM) during the COVID-19 pandemic. However, the growth is

not as significant as expected due to the demand and supply gaps. The

market is then expected to grow at a CAGR of 7.9% from 2021 and

reach \$21.9 billion in 2023. An increase in the prevalence of diabetes

globally is driving the growth of insulin pens, syringes, pumps, and

injectors market.

The insulin pens, syringes, pumps and injectors devices and equipment market consist of sales of insulin pens, syringes, pumps and injectors and related services. Insulin pens are reusable pen-like tools used to inject desired a dose of insulin into the blood of a diabetic patient. Insulin helps to ensure that glucose levels in the patient’s blood are appropriate. Insulin syringes are the reusable devices used to inject insulin which is specifically made for self-administration. Insulin

## GLOBAL INSULIN PENS, SYRINGES, PUMPS AND INJECTORS MARKET

Information sourced from The Business Research Company  
thebusinessresearchcompany.com

The insulin pens, syringes, pumps and injectors market consist of sales of insulin pens, syringes, pumps and injectors and related services by entities (organizations, sole traders and partnerships) that produce insulin pens, syringes, pumps and injectors which are used to administer insulin to control blood glucose levels in diabetic patients. Insulin pens, syringes, pumps and injectors are reusable or disposable tools used to inject the desired dose of insulin into the blood of a diabetic patient.

**Rising Cases Of Diabetes Is The Main Driver Of The Market**

**Continuous Glucose Monitoring (CGM) using an insulin pump is gaining popularity among type 2 diabetes patients. Insulin patch pumps are gaining traction over conventional insulin pens. The insulin delivery devices have been evolving to provide accurate and flexible insulin delivery at lower costs**

**Expected Growth Rate Till 2023**

**8.71%**

---

**Expected Market Size By 2023**

**\$22,553.3 Million**

### Insulin Pens, Syringes, Pumps And Injectors Global Market Report 2020-30: Covid 19 Implications And Growth

pumps and injectors are the devices which are used to deliver insulin continuously throughout the day to the diabetic patient and maintain blood glucose levels.

### [Trends In The Global Insulin Pens, Syringes, Pumps And Injectors Market](#)

Many companies are focusing on technological advancements in insulin delivery systems to deliver insulin effectively and safely. For instance, on June 2018, the US Food and Drug Administration approved MiniMed 670G hybrid closed looped system for curing diabetic individuals aged between 7-13 years of age. This is a diabetes management device that automatically monitors glucose and provides appropriate level insulin doses needed. It requires little or no input from the user. Similarly, on February 2019, FDA also approved Tandem Diabetes Care t: Slim X2 insulin pump. This pump uses interoperable technology that allows patients to customize their diabetes management devices according to their preferences. These devices contain of automated insulin dosing systems, continuous glucose monitors, blood glucose meters or other electronic devices.

Global Insulin Pens, Syringes, Pumps And Injectors Market Segments:

The global insulin pens, syringes, pumps and injectors devices and equipment market is further segmented based on type, end users, pens, pumps and geography.

By Type: Pens, Injectors And Pumps, Syringes.

By End Users: Hospitals, Homecare, Others.

By Pens: Reusable, Disposable.

By Pumps: Tubed Pumps, Tubeless Pumps.

By Geography: The global insulin pens, syringes, pumps and injectors devices and equipment market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, the North American insulin pens, syringes, pumps and injectors devices and equipment market accounts for the largest share in the global insulin pens, syringes, pumps and injectors devices and equipment market.

Insulin Pens, Syringes, Pumps And Injectors Global Market Report 2021 is one of a series of new reports from The Business Research Company that provides insulin pens, syringes, pumps and injectors devices and equipment market overviews, analyzes and forecasts market size and growth for the global insulin pens, syringes, pumps and injectors devices and equipment market, insulin pens, syringes, pumps and injectors devices and equipment market share, insulin pens, syringes, pumps and injectors devices and equipment market players, insulin pens, syringes, pumps and injectors devices and equipment market segments and geographies, insulin pens, syringes, pumps and injectors devices and equipment market's leading competitors' revenues, profiles and market shares. The insulin pens, syringes, pumps and injectors devices and equipment market report identifies top countries and segments for opportunities and strategies

based on market trends and leading competitors' approaches.

Read Insulin Pens, Syringes, Pumps And Injectors Global Market Report 2021 from The Business Research Company for information on the following:

Data Segmentations: Market Size, Global, By Region And By Country; Historic And Forecast Size, And Growth Rates For The World, 7 Regions And 12 Countries

Insulin Pens, Syringes, Pumps And Injectors Market Organizations Covered: Novo Nordisk A/S, Eli Lilly and Company, Medtronic plc, Abbott, Insulet Corporation, Sanofi, Roche, F. Hoffmann-La Roche, Ltd, Becton, Animas Corporation, Ypsomed Holding AG, Dickinson and Company, Valeritas, Inc, MannKind Corporation, Tandem Diabetes Care, Inc., Biocon Ltd., B. Braun Melsungen AG, BD.

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.
