

# Autoclaved Aerated Concrete (AAC) Market Report by Industry Growth, Drivers, Challenges and Companies Analysis by 2028

*The global autoclaved aerated concrete (AAC) market size is expected to reach USD 28.41 Billion at a steady CAGR of 5.3% in 2028*

VANCOUVER, BC, CANADA, September 1, 2021 /EINPresswire.com/ -- The global [autoclaved aerated concrete market](#) size is expected to reach USD 28.41 Billion at a steady CAGR of 5.3% in 2028, according to latest analysis by Emergen Research. Steady market revenue growth, driven by robust sales of Autoclaved Aerated Concrete (AAC),

can be attributed to rising demand for lightweight building and construction materials. Use of autoclaved aerated concrete decreases building dead weight, thereby reducing structural costs for steel and cement by up to 27% and 20% respectively. In addition, lighter weight allows for construction of taller structures. Autoclaved aerated concrete blocks are about three to four times lighter than traditional red bricks, thus allowing for easier and more cost-effective transportation.

Rising focus on infrastructure development in developing countries is a significant factor driving autoclaved aerated concrete market growth. Autoclaved aerated concrete products are lightweight and provide improved workability and durability, along with superior thermal and acoustic insulation properties.

The report is an appropriate prototype of the Autoclaved Aerated Concrete (AAC) industry, entailing a thorough investigation of the global Autoclaved Aerated Concrete (AAC) market. The report serves as a valuable source of data and information relevant to this business vertical. It covers numerous industry aspects, with a special focus on market scope and application areas. The Autoclaved Aerated Concrete (AAC) report identifies the fundamental business strategies employed by industry professionals and offers an insightful study of the value chain and the distribution channels of the global Autoclaved Aerated Concrete (AAC) market. The current

industry trends, growth potential, up-to-date outlines, and market restraints have also been analyzed by the authors of the report.

An extensive analysis of the Autoclaved Aerated Concrete (AAC) market has also been performed, which includes different factors, right from region-centric statistical data and commercial progress to both macro- and micro-economic indicators that are vital to draw a precise forecast. Furthermore, the study gives a comprehensive assessment of the growth prospects, challenges, drivers, hurdles, and the patents observed in the Autoclaved Aerated Concrete (AAC) market. Additionally, the key vendor analysis, product launches, market trends, and revenue generation, have also been furnished in the report to help readers formulate lucrative strategies.

Competitive Scenario:

The Global Autoclaved Aerated Concrete (AAC) Market is consolidated due to the presence of a large number of both domestic and international manufacturers. The international companies are resorting to innovative expansion strategies like mergers and acquisitions (M&A), joint ventures, and collaborations, in order to broaden their product range, thereby increasing the global market share.

It also sheds light on the overall competitive landscape, growth trends, market concentration rate, mergers and acquisitions, joint ventures, collaborations, and other strategic alliances and business expansion tactics adopted by the companies to gain a robust footing in the Autoclaved Aerated Concrete (AAC) market. The report also provides information on the new players entering the market and offers them strategic recommendations to overcome the entry-level barriers and make fruitful business decisions.

Top key Companies in Autoclaved Aerated Concrete (AAC) Market are:

Aercon AAC, UAL Industries Ltd., Mannok, H+H International A/S, JK Lakshmi Cement Ltd., Xella Group, Biltech Building Elements Ltd., CSR Ltd., Eastland Building Materials Co. Ltd., and Buildmate Projects Pvt. Ltd.

Segmentation Landscape:

The report further segments the Autoclaved Aerated Concrete (AAC) market on the basis of product types and application spectrum offered in the market. The report also offers insights into the segment expected to show significant growth over the projected period. The study focuses on the growth rate of every segment and is explained through detailed graphs, figures, charts, and tables. These segments are analysed on the basis of present, emerging, and future

trends. The regional segmentation provides current and forecast demand estimation for the Autoclaved Aerated Concrete (AAC) industry in key regions.

Emergen Research has segmented the global autoclaved aerated concrete market on the basis of product type, application, and region:

Product Type Outlook (Volume, Thousand Cubic Meters; Revenue, USD Billion; 2018–2028)

Blocks

Cladding Panels

Beams & Lintels

Wall Panels

Roof Panels

Others

Application Outlook (Volume, Thousand Cubic Meters; Revenue, USD Billion; 2018–2028)

Residential

Non-Residential

Regional Landscape:

Geographical distribution of the Autoclaved Aerated Concrete (AAC) market includes analysis of the leading players present in the key regions of North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. The report offers valuable insights into the market size, share, growth rate, production and consumption rate, supply and demand ratio, import/export, revenue contribution, and strategies adopted by the prominent companies located in each region. Overall, the report offers deep insights into the current and emerging trends of the Autoclaved Aerated Concrete (AAC) market, along with the projected growth rate over the forecast timeline.

The complete regional analysis covers:

North America (U.S., Canada, Mexico)

Europe (U.K., Italy, Germany, France, Rest of EU)

Asia Pacific (India, Japan, China, South Korea, Australia, Rest of APAC)

Latin America (Chile, Brazil, Argentina, Rest of Latin America)

Middle East & Africa (Saudi Arabia, U.A.E., South Africa, Rest of MEA)

The Global Autoclaved Aerated Concrete (AAC) Market is formulated through extensive primary and secondary research, which is further validated and verified by industry experts and professionals. SWOT analysis and Porter's Five Forces Analysis are used to examine and assess the market and its players. Moreover, the report also offers a feasibility study and investment

return analysis to assist the readers in making strategic investment plans.

Key market aspects studied in the report:

**Market Scope:** The report explains the scope of various commercial possibilities in the global Autoclaved Aerated Concrete (AAC) market over the upcoming years. The estimated revenue build-up over the forecast years has been included in the report. The report analyzes the key market segments and sub-segments and provides deep insights into the market to assist readers with the formulation of lucrative strategies for business expansion.

**Competitive Outlook:** The leading companies operating in the Autoclaved Aerated Concrete (AAC) market have been enumerated in this report. This section of the report lays emphasis on the geographical reach and production facilities of these companies. To get ahead of their rivals, the leading players are focusing more on offering products at competitive prices, according to our analysts.

**Report Objective:** The primary objective of this report is to provide the manufacturers, distributors, suppliers, and buyers engaged in this sector with access to a deeper and improved understanding of the global Autoclaved Aerated Concrete (AAC) market.

Key reasons to buy the Global Autoclaved Aerated Concrete (AAC) Market report:

The latest report comprehensively studies the global Autoclaved Aerated Concrete (AAC) market size and provides useful inference on numerous aspects of the market, such as the current business trends, market share, product offerings, and product share.

The report offers an insightful analysis of the regional outlook of the Autoclaved Aerated Concrete (AAC) market.

It offers a detailed account of the end-use applications of the products & services offered by this Autoclaved Aerated Concrete (AAC) industry.

The report holistically covers the latest developments taking place in this industry. Therefore, it lists the most effective business strategies implemented by the Autoclaved Aerated Concrete (AAC) market rivals for ideal business expansion.
