

ProSource, a technology solution provider, celebrates 15 years with refreshed brand and new focus

ORLANDO, FLORIDA, USA, September 1, 2021 /EINPresswire.com/ -- ProSource Technology Solutions, the Orlando-based technology service provider, is celebrating their 15th anniversary with an updated look.

Moving forward, the company will be known simply as ProSource.

The rebranding efforts are reflected in a newly designed logo, website, and typography mirroring the company's modern approach, straight-forward attitude, and innovative, bold strategies.

The new ProSource logo representing a modern and clean brand image.

ProSource's motives are aimed beyond a visual refresh. ProSource refocused existing services to bring clients top-of-the-line technology solutions and expert knowledge in three, technically-challenging industries —Healthcare, Engineering, and Financial Services. ProSource has decades of experience in these areas, creating solutions that are not only unique for each industry, but each individual business.

"We're moving forward with simplification, focusing our skills and industry-specific experiences on what we do best," says CEO, Leon Hart. "We deliver innovative solutions that elevate our client's services. With this rebranding effort we're refining who we are and emphasizing that."

What has not changed is their mission to ensure maximum return on IT investments by implementing solutions that increase productivity, future-proofing systems, and ultimately growing their customers' businesses.
