NORTHBROOK, IL, USA, September 1, 2021 /EINPresswire.com/ -- [USA Fibroids Centers](#)’ Talk About “U” Video Chat will stream live on Instagram on Wednesday, September 8, at 7:00 p.m. [EST]. Fibroid Ambassadors Toya Johnson and Kym Lee will lead a live chat about fibroid disease with USA Fibroids’ Founder and CEO [Dr. Yan Katsnelson](#) to encourage women to discuss fibroids.

The Talk About “U” series is a national public awareness campaign sponsored by USA Fibroid Centers to end the silence around fibroids that are seldom discussed, often underdiagnosed, and are the leading cause of hysterectomies in women in the U.S. An estimated 75% of reproductive-age women have uterine fibroids and about 25% of them suffer from symptoms including pelvic pain, heavy menstrual bleeding, pregnancy loss, and infertility. The occurrence and severity of symptoms are even higher among African American women.

“

We need to end the suffering and the silence, talking more about non-surgical treatments like Uterine Fibroid Embolization that shrinks fibroids and alleviates symptoms.”
