

Scamproof Announces New Partnership With IDX To Expand Scam, Fraud and Identity Theft Prevention Offerings

The partnership will enhance the popular SCAMRx solution that provides 24/7 access to U.S. based threat consultants and stops scams and fraud in real time.

MIAMI, FLORIDA, UNITED STATES, September 7, 2021 /EINPresswire.com/ -- [Scamproof](#), Incorporated a Florida based provider of the innovative scam and fraud prevention product SCAMRx has announced a new partnership with IDX, the largest provider of data breach and identity protection services to the

U.S. government and a trusted provider to Fortune 500-sized companies and large strategic partners. IDX currently protects over 40 million individuals from privacy risks.

Scam Prevention & Data Monitoring

“We’re honored to partner with IDX”, says Scamproof CEO and co-founder Noah Gershon. “This allows us to expand our offerings and supplement our popular SCAMRx product with a full suite of identity theft protection features, data breach response services and million dollar identity theft insurance coverage.”

“

In my opinion, the new DATAGUARD solution is one of the most effective ways to stop scams and fraud BEFORE they happen while also monitoring your information and data for compromise.”

Noah Gershon

SCAMRx, a stand alone product pioneered by Scamproof gives members 24/7 access to U.S. based threat advisors who provide recommendations and guidance on the validity of requests, solicitations and demands. Members can call with questions about suspicious communications and speak with a trusted, calming voice.

“These communications put people in high-stress situations where they may not make the best decisions. To give someone the ability to speak with a trained fraud expert BEFORE they act on a solicitation is a real game changer”, says Gershon. “Phone scams alone cost consumers over 19

billion dollars in 2020 and SCAMRx provides a true safety net with regard to the protection of assets in real time”.

The new Scamproof product called DATAGUARD combines the on-call SCAMRx protection with robust identity and data monitoring features found in the IDX solution. DATAGUARD members also have 24/7 access to fraud remediation experts and identity recovery specialists. The complete list of DATAGUARD features can be found [here](#).

“In my opinion, the new DATAGUARD solution is one of the most effective ways to stop scams and fraud before they happen while also monitoring your information and data for compromise. It’s basically a brand new and much needed product for complete consumer scam, fraud and identity theft protection”, said Gershon.
