SHERIDAN, WYOMING, UNITED STATES, September 2, 2021 /EINPresswire.com/ -- According to IMARC Group's latest report, titled "[Drones Market: Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026](#)," the global drones market exhibited strong growth during 2015-2020. Looking forward, the market is expected to grow at a CAGR of around 17% during 2021-2026.

We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Drones, or unmanned aerial vehicles (UAV), are unpowered aircraft generally used for defense and military purposes. They can be flown for longer distances, rely on sensors and LIDAR detectors, without the need for a pilot to navigate it. Nowadays, drones are also used for recreational purposes and in the business community due to the enhanced safety and efficiency levels. They find application in monitoring, surveying, mapping, precision agriculture, aerial remote sensing, and product delivery.
