

Premenstrual Syndrome Treatment Market Report 2021: Size, Share, Trends, Growth and Forecast 2026

SHERIDAN, WYOMING, UNITED STATES, September 2, 2021 /EINPresswire.com/ -- According to the latest report by IMARC Group, titled "[Premenstrual Syndrome Treatment Market](#): Global Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026," the market to grow at a CAGR of XX% during 2021-2026.

Premenstrual syndrome (PMS) refers to a set of emotional, physical, and psychological symptoms that occur in women during the end of the luteal phase. It is caused by the elevated levels of progesterone and estrogen. Some of the common PMS symptoms include mood swings, breast tenderness, bloating, fatigue, anxiety, and body pain. PMS treatment involves various medications that help to increase the levels of serotonin hormone in the body. These treatments include analgesics, antidepressants, nonsteroidal anti-inflammatory drugs (NSAIDs), ovarian suppression [agents](#), and hormonal contraceptives.

Premenstrual Syndrome Treatment Market

As the novel coronavirus (COVID-19) crisis takes over the world, we are continuously tracking the changes in the markets, as well as the industry behaviours of the consumers globally and our estimates about the latest market trends and forecasts are being done after considering the impact of this pandemic.

Premenstrual Syndrome Treatment Market Trends:

The increasing prevalence of PMS and premenstrual dysphoric disorder (PMDD) is primarily driving the market growth. The rising awareness regarding the availability of alternative PMS treatment methods is further catalyzing the market growth. In line with this, pharmaceutical companies are investing in research and development (R&D) activities to launch medications with minimal side-effects, which is contributing to the market growth. Additionally, the widespread adoption of plant-based [nutrition](#) supplements for PMS relief is presenting

numerous growth opportunities to leading players in the market, thus creating a positive outlook for the market.
