

Family Entertainment Centers Market in United Kingdom Predicted to Reach \$1,755.06 Million by 2027

The UK FEC market is expected to recover from mid-2021 and will be struggling with a growth rate of 12.8% from 2020 to 2027

PORTLAND, OREGON, UNITED STATES, September 2, 2021

/EINPresswire.com/ -- Increase in per capita disposable income, availability of diversified gaming & entertainment options, rise in preference for indoor entertainment, and presence of young target population in the UK region majorly supplement the UK family/indoor entertainment centers market growth. However, upsurge in penetration of home gaming & mobile devices, high initial cost of FECs, and increase in ticket prices are expected to hamper the market growth. UK family/indoor entertainment centers market size was valued at \$715.14 million in 2019, and is projected to reach \$1,755.06 million by 2027, growing at a CAGR of 12.8% from 2020 to 2027.

Explore Report Description- <https://www.alliedmarketresearch.com/uk-family-indoor-entertainment-centers-market-A06725>

Post COVID-19, the size of the family entertainment centers market in UK is estimated to witness growth from \$756.48 million in 2020 to reach \$1,755.06 million by 2027, at a CAGR of 12.8%. The current estimation of 2027 is projected to be lower than pre-COVID-19 estimates. The market is expected to recover from mid-2021 and will be struggling with a growth rate of 12.8% from 2020 to 2027; however, it is expected to recover in the upcoming years, owing to government initiatives in the form of repayment waivers, debt relief, rent waivers, utility rebates and others and several strategies adopted by the key players operating in the UK family/indoor entertainment centers market.
