AI Furnish was founded in 2005 after four brothers who owned a furniture repair business in New York traveled to Finland to meet one of the country’s premier furniture manufacturers. A match made in furniture heaven ensued, and AI Furnish was born. Since its inception, AI Furnish has focused on delivering uniquely designed, comfortable, transformational furniture that overcomes space challenges and fits ever-changing lifestyle needs.

Its product portfolio features pieces with revolutionary transforming capabilities to maximize space and freshen up the look of any room, including wall beds, shelves that transform to tables, sofas with 50 changeable positions, and more. Its current best seller is its Murphy Bed, with models featuring desk, sofa, and shelving capabilities.
