*According to the latest report by IMARC Group, The global smoke detector market grew at a CAGR of 9% during the period 2014-2019.*

SHERIDAN, WYOMING, UNITED STATE, September 3, 2021 /EINPresswire.com/ -- According to the latest report by IMARC Group, The global [smoke detector market](#) grew at a CAGR of 9% during the period 2014-2019. Looking forward, IMARC Group expects the market to continue its double-digit growth during the next five years.

A smoke detector stands for a smoke sensing device that is used for the early detection of fire. It comprises two components, a smoke sensor and a smoke alarm that alerts people when the sensor detects the smoke. The smoke detector is cost-effective, easy to install, and prevents the risk of fire accidents. Besides this, smoke detectors are extensively installed in commercial buildings, residential spaces, industrial hubs, and other public places.

## Market Trends:

Rapid urbanization, growing infrastructural investments, and increasing consumer awareness are primarily driving the global smoke detector market. Moreover, the prevalent trend of digitalization, along with the rising penetration of IoT-enabled devices, is augmenting the demand for smart smoke detectors across the globe. Additionally, the introduction of several government initiatives for curbing fire accidents, coupled with the growing construction of data centers, IT hubs, and smart buildings, will continue to further propel the global smoke detector over the forecasted period.
