

Global Handheld Surgical Devices And Equipment Market Trends, Strategies, And Opportunities In The Market 2021-2030

*The Business Research Company's
Handheld Surgical Devices And
Equipment Global Market Report 2021:
COVID-19 Impact And Recovery To 2030*

LONDON, GREATER LONDON, UK,
September 6, 2021 /EINPresswire.com/

-- According to the new market
research report 'Handheld Surgical
Devices And Equipment Global Market

Report: COVID-19 Impact And Recovery' published by The Business Research Company, the [handheld surgical devices and equipment market](#) is expected to grow from \$3.82 billion in 2020 to \$3.99 billion in 2021 at a compound annual growth rate (CAGR) of 4.5%. The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$4.61 billion in 2025 at a CAGR of 3.7%. Increasing demand for aesthetic surgeries drives the handheld surgical devices and equipment market.

The handheld surgical devices market consists of sales of handheld surgical devices and related services.

Trends In The Global Handheld Surgical Devices And Equipment Market

Use of handheld devices and equipment in minimally invasive surgeries is increasing. The low cost of handheld instruments compared to robotic systems is the major factor for increasing use of these devices in most of the surgical settings. Technical advancements in handheld surgical instruments are increasingly adopted by surgeons due to the improvement in the ease of use of these instruments.

Global Handheld Surgical Devices And Equipment Market Segments:

The global handheld surgical devices and equipment market is further segmented based on product, end-user, application and geography.

By Product: Scalpels, Forceps, Retractor, Dilators, Graspers, Others

By End-User: Hospitals, Specialized Clinics, Long-Term Care Centers, Ambulatory Surgery Centers, Others

By Application: Neurosurgery, Cardiovascular, Orthopedic, Plastic & Reconstructive Surgery, Obstetrics & Gynecology, Others

By Geography: The global handheld surgical devices and equipment market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.
