

GO! Pest Control Celebrating 6 Years in Business

An industry leader in pest control in the Ottawa and Toronto regions has reached a new milestone.

OTTAWA, ONTARIO, CANADA, September 6, 2021 /EINPresswire.com/ -- According to statistics, more than half of all businesses fail within their first five years in business. But thanks to hard work, dedication, and a commitment to customer service, representatives with [GO! Pest Control](#)

announced today that it is celebrating its sixth year in business.

"We consider it an honour and pleasure to serve our customers for the past six years," said Ariel Perets, spokesperson for GO! Pest Control.

GO! Pest Control's sixth-year in business celebration comes on the heels of the company recently being named in Ottawa's Top 3 in the pest control category by Three Best Rated.

Three Best Rated® (CANADA) was created in 2014 with a simple goal to find the top three local businesses, professionals, restaurants, health care providers, etc., in key cities. The company's employees handpick the top three local businesses and check the business's reviews, history, complaints, ratings, nearness, satisfaction, trust, cost, general excellence, reputation, etc., using its [50-Point Inspection](#). Its 50-Point Inspection includes everything from checking reviews, ratings, reputation, history, complaints, satisfaction, trust, and cost to general excellence.

Three Best Rated helps four million customers per month find the best businesses in key cities without any effort.

As to why anyone should take advantage of the company's services, Perets pointed out that GO! Pest Control has been awarded Best of 2020 by [HomeStars](#), Canada's largest network of verified and community-reviewed home service professionals. HomeStars' mission is to give people the tools they need to hire right the first time for every home improvement project.

GO! Pest Control, which won the same award in 2019 and has also been listed in the top three for pest control in Ottawa since 2015, specializes in pest control for insects and rodents; Wildlife removal control and relocation; Prevention work, caulking, and more.
