Cristina Martínez García, Ph.D. in Risk Management, serves as the Group Chief Risk Officer for SACYR, a global group dealing in infrastructure development, project management, and services. She is the former Chief Risk Officer for both Campofrio Food Group and Iberia Airlines. She also serves on the Federation of European Risk Management Associations and the Spanish Risk

Management Association board of directors. She is a faculty member of the DCRO Institute, where she teaches resiliency and business continuity.

“Cristina is one of the most dynamic and forward-thinking risk professionals I have encountered,” said David R. Koenig, President and CEO of the DCRO Institute. “We are proud to have her as a graduate of our Board Members’ Course on Risk as she is someone who continues to share her expertise widely across the globe,” he continued.

The Certificate in Risk Governance is awarded to those who have completed an intensive 17-course education program and evaluation. The curriculum is designed for current and aspiring board members who seek to advance the governance of risk-taking at their organizations and those who interact with boards. Taught by some of the [world’s leading figures in risk governance](#), the program features lessons by nearly 50 board members, c-level executives, and well-known

authors from five continents.

"A new era of risk governance transformation is upon us and is here to stay. The global push for companies and their leaders to do things better, in the long run, is far beyond getting a better ESG score. As the concept of risk is more fluid than ever, a Qualified Risk Director™ in the boardroom can help companies to bring a unique perspective to the strategic dialog among the group," said Martínez García.

"As a faculty member and study cohort leader for this program, I could not be prouder of what we have done so far and look forward to the growing positive impact of getting more Qualified Risk Directors™ worldwide," continued Martínez García.

The Certificate in Risk Governance program, also known as [The Board Members' Course on Risk™](#), is unique. No course on risk for board members as robust as this - depth, practicality, and global expertise - exists anywhere else. The fundamental Duty of Care for directors around risk is to ensure that our organizations take risks well in pursuit of our goals and ambitions. This course furthers the fulfillment of that duty.
