Finally a clean organic source of vegetables with high fiber, foods with high fiber for toddlers and foods with high fiber for pregnancy, because mothers and kids are the bedrock of any civilization.”

Dr Darren Wayne, aka The Food Guru.

Now is the time to start eating the last real food on earth, before it's gone.

The 15 raw superfoods in MealBetix were grown in the last little bit of soil left that is actually 100% clean, free from all pesticides, herbicides, artificial fertilizers and of course GMOs.

“After spending years searching for any soil that wasn’t contaminated, I finally found it, but just a little bit, and now I grow all 15 superfoods in this extremely rare soil.”

Pollution has contaminated everything around us, especially the soil, so just to find a little bit of soil left here that is still clean and pure, had been a very long and extremely arduous task to say the least.

We need a clean source of vegetables with high fiber, especially foods with high fiber for toddlers and foods with high fiber for pregnancy, because healthy mothers and healthy children are the bedrock of any civilization. Anyone can mix MealBetix in a water bottle, regular bottle or a baby bottle.

MealBetix is the only Holistic Lifestyle Company that provides 100% Organic meals for everyone who needs a source of truly 100% Organic and 100% clean food every day in their lives, especially those who think they cannot afford to eat 100% Organic every day. Since MealBetix was launched, already thousands of meals have been feeding individuals and families daily, saving each person \$300 or more on their monthly food bill, plus saving them money on all their nutrition, too. How can the last 100% Organic Low Carb Meal on earth cost less than junk food? Because there is no food corruption at all. With food corruption, everything becomes expensive as we all know.

And MealBetix just launched monthly automatic delivery, so you can receive MealBetix on time every month and never run out. Imagine saving enough time each week not having to prepare and cook meals so you can start a hobby, and saving enough money on your food bill and
