

Global Skin Cancer Drugs Market Trends, Strategies, And Opportunities In The Skin Cancer Drugs Market 2021-2030

The Business Research Company's Skin Cancer Drugs Global Market Report 2021: COVID-19 Impact And Recovery

LONDON, GREATER LONDON, UK,
September 13, 2021 /

EINPresswire.com/ -- According to the new market research report 'Skin Cancer Drugs Global Market Report 2021: COVID-19 Impact And Recovery'

published by The Business Research Company, the [skin cancer drugs market](#) is expected to grow from \$1.44 billion in 2020 to \$1.61 billion in 2021 at a compound annual growth rate (CAGR) of 11.8%. The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$2.72 billion in 2025 at a CAGR of 14%. Significant rise in prevalence of skin cancer is driving the demand for the drugs for skin cancer.
