

# Mighty Paw Launches Single-Ingredient Bully Sticks & Pig Ears Adding to Their Naturals Line

*The family orientated dog gear company released two new fully digestible, all natural dog chews that are sourced in Columbia and hand-inspected in the US.*

ROCHESTER, NY, USA, September 13, 2021

/EINPresswire.com/ -- Mighty Paw, creators of such innovative dog gear as the Smart Bell, Sport Dog Harness 2.0 and the Chew Proof Puppy Seat Belt, announced the launch of two new edible dog chews within their Mighty Paw Naturals consumable line. The Bully Sticks and Half Pig Ears follow the launch of the successful [Yak Cheese Dog Chews](#) in April of this year.

Both chews are all-natural treats that are sourced in Columbia and hand-inspected as well as packaged at Mighty Paw's headquarter in Upstate New York. That makes them chemical-free alternatives to bleached and unhealthy rawhide chews.

The [Mighty Paw Naturals Bully Sticks](#) are sourced from grass-fed, free-range beef in Columbia and come in different lengths and thicknesses for dogs of all life stages and chewing preferences. They are fully edible chews that soften with exposure to a dog's saliva and encourage chewing which reduces tartar and plaque buildup. Each package consists of 5 protein-rich bully sticks that support a healthy diet and dental health. Additionally, there is the option to purchase a 10 piece Variety Pack that consists of a mix of standard and thick 6" & 9" bully sticks.

The [Mighty Paw Naturals Half Pig Ears](#) are sourced from Columbian pork. Each package consists of 12 half pig ears that are 6" long on average. They're naturally rich in protein & chondroitin and low in carbs & cholesterol. That makes them great for your dog's dental and joint health.

The Mighty Paw Naturals Half Pig Ears are a single-ingredient dog chew that's fully digestible and great for joint health.
