

Velo Canteen Bottle the Latest Innovation for Cyclists who Love their Coffee

The Velo Canteen is a coffee bottle that perfectly fits in a bicycle bottle cage.

CULVER CITY, CALIFORNIA, UNITED STATES, September 14, 2021

[/EINPresswire.com/](https://EINPresswire.com/) -- The creators of the [Velo Canteen](#) bottle are pleased to announce the official launch of their game-changing coffee bottle for cyclists.

The Velo Canteen bottle is a stainless-steel, double-walled insulated bottle that is the ultimate accessory for cyclists wishing to bring their coffee along for their rides. The bottle was created to identify a gap in the market for appropriate storage of hot coffee while on their bicycles.

"This bottle was created to pay homage to the cycling heritage and to solve the age-old problem on the micro (riding with hot coffee) and macro (lessening the use of single use plastics) levels," says the founder of the company.

"Additionally, with the Velo Canteen your coffee will stay hot for hours or, if you like it iced, cold as well. We hope you can join us in our mission to save the planet, one delightful sip at a time."

When designing the Velo Canteen, no stone was left unturned during the process and, as such, the bottle offers a host of benefits and features to users, including:

- Stainless steel construction

- Double wall insulated
- Sidewall design for added grip and detail
- Two lids; one with a straw for activities and a vintage-style one for casual settings
- Keeps beverages hot or cold
- Made to perfectly fit a bicycle's bottle cage
- And more!

The Velo Canteen bottle makes the perfect fall and holiday gift for any avid or casual cyclist.
