

# Aircraft Lighting Market Likely to Enjoy Explosive Growth by 2027 | Madelec Aero, Safran, Cobham PLC

*Aircraft lighting market is projected to reach \$2.0 billion by 2027. The report highlights key drivers, restraints, and opportunities of the global market 2020.*

PORTLAND, ORAGON, UNITED STATES, September 14, 2021 /EINPresswire.com/ -- According to the report published by Allied Market Research, the global [aircraft lighting market](#) generated \$1.4 billion in 2019 and is estimated to reach \$2.0 billion by 2027, registering a CAGR of 4.7% from 2019 to 2027. The report offers an extensive analysis of the changing market dynamics, major segments, market player positioning, industry roadmap, pricing analysis, and competitive scenario.

An increase in aircraft demand and a shift from incandescent lights to LED lights drive the growth of the global aircraft lighting market. However, the high cost of LED and delayed delivery of aircraft hinder market growth. On the other hand, the surge in demand for lightweight aircraft components creates new opportunities in the coming years.

Covid-19 Scenario on Aircraft Lighting Market:

The aviation industry is one of the worst-hit sectors during the lockdown. On the other hand, the precautionary measures and government restrictions on travel and tourism have badly impacted the industry with less revenue generation.

However, various countries have started entering the recovery phase including China, India, and others. Furthermore, the governments in these regions are expected to lift certain restrictions, offering an opportunity for the aviation industry to get back to their profit margin.
