

# Adoption of Text-To-Speech Devices Is Witnessing An Upsurge Among Patients Affected With Speech-Related Disorder

*Advancements in touch-screen mobile devices coupled with communication-based applications are expected to reshape the global speech generating devices market.*

ROCKVILLE, MARYLAND, UNITED STATES, September 16, 2021

/EINPresswire.com/ -- Speech-generating devices (SGDs), referred to as voice output communication aids, imply electronic augmentative & alternative communication systems (AAC system) used to replace speech/writing for individuals suffering from severe speech impairments. The global SGDs market has been witnessing key trends such as the advent of AAC apps on mobile devices and superior automation. These are providing convenience to people associated with sophisticated communication requirements, and their caregivers. Independent decisions are made by patients, consumers, and caregivers while purchasing suitable SGDs. Our report provides in-depth analysis of the global speech generating devices market during the forecast period. Fact.MR's Speech-generating devices (SGDs) sales outlook offers category and segment level analysis that provides insights on lucrative and nascent product types. Market players can use this information to identify sales potential of Speech-generating devices (SGDs) and set sales targets at the local, country, and regional level.

The global sales of speech generating devices is expected to exhibit a staggering expansion at 12.2% CAGR over the forecast period 2017 to 2022, according to a report by Fact.MR. The report anticipates the market to account for revenues worth US\$ 168.6 Mn in 2017, and the market is further estimated to reach nearly US\$ 300 Mn by 2022-end.

Advancements in Touch-Screen Mobile Devices to Reshape the Global SGDs Market

The global speech generating devices market is projected to register an exponential expansion during the forecast period. Over the past few years, technological advancements have enabled SGDs to emerge as a refined tool, addressing numerous requirements for speech-impaired individuals.

A wide number of speech generating devices available in the market are based on a variety of cognitive and physical abilities, including symbol systems, text-based communication devices, eye tracking systems, and tongue switches. Advancements in touch-screen mobile devices coupled with communication-based applications are expected to reshape the global speech generating devices market. The convenience offered by the small-size, lightweight, and touchscreen interface has made the big and heavy versions of SGDs obsolete. Company and brand share analysis on Speech-generating devices (SGDs) reveals how much market share is captured by Tier 1, Tier 2, and Tier 3 players.

#### Key players in the Global Speech Generating Devices Market

Abilia Toby Churchill Limited  
AMDi  
Saltillo Corporation  
Zytec Pty Ltd.  
Tobii Dynavox  
Prentke Romich Company Inc.  
Lingraphica  
Textspeak  
Zygo USA.

#### Projections for the Global Speech Generating Devices Market

North America will continue to be the most lucrative region for growth of the speech generating devices market, followed by Europe. Revenue from sales of speech generating devices in North America is expected to reach US\$ 126.7 Mn by 2022-end.

Sales of speech generating devices in Asia-Pacific excluding Japan (APEJ) will continue to register the fastest expansion during the forecast period.

Synthesized speech devices will remain preferred among products in the market, followed by picture communicators.

Sales of text-to-speech devices are expected to register the highest CAGR in the market through 2022.

On the basis of display, although static display for speech generating devices will remain sought-after in the market, sales of dynamic display will exhibit a comparatively faster expansion throughout the forecast period.

Specialty clinics are expected to remain the largest distribution channel for sales of speech generating devices, expanding at the highest CAGR through 2022.

Hospitals will continue to hold second position in the market based on distribution channel, to account for more than US\$ 100 Mn by 2022-end.

By technology, manual speech generating devices will witness largest adoption, followed by head tracking and eye tracking technology-based speech generating devices.

- US Speech Generating Devices Market

- Canada Speech Generating Devices Sales
- Germany Speech Generating Devices Production
- UK Speech Generating Devices Industry
- France Speech Generating Devices Market
- Japan Speech Generating Devices Supply Assessment

Highlights from the Report Include

Patent analysis of the global speech generating devices market

Detailed overview of the parent market

Identification and Understanding of the global SGDs market

Recent industry developments and trends

Information imperative for market players for sustaining and enhancing their market footprint

Projected, current and historical market size, in terms of value and volume

Changing market dynamics

Explore Fact.MR's Coverage on the Healthcare Domain

Hemoconcentrators Market ( <https://www.factmr.com/report/hemoconcentrators-market> ): A recent study by Fact.MR on the Hemoconcentrators Market offers a 10-year forecast analysis for the period 2021– 2031. The study analyzes key trends that are currently influencing the growth of the market. This report covers key dynamics, including drivers, restraints, and opportunities for leading market players along with key stakeholders and emerging players.

Contact Cast Systems Market( <https://www.factmr.com/report/contact-cast-systems-market> ): Fact.MR's extensive coverage of the Contact Cast Systems Market offers in-depth insights into the prominent growth dynamics that are likely to aid the expansion of growth prospects in the near future. Data has been presented in the form of key segments across prominent geographies, along with important information concerning key manufacturers operating within the industry.

Bioelectric Medicine Market(<https://www.factmr.com/report/bioelectric-medicine-market> ) : The Bioelectric Medicine Market study published by Fact.MR offers an unbiased analysis of the prominent drivers, opportunities, and trends expected to shape future expansion outlooks. The report provides a comprehensive assessment of the prominent segments and geographies which are likely to benefit market players in the forthcoming years.

About Fact.MR

Market research and consulting agency with a difference! That's why 80% of Fortune 1,000 companies trust us for making their most critical decisions. We have offices in the US and Dublin, whereas our global headquarter is in Dubai. While our experienced consultants employ the latest technologies to extract hard-to-find insights, we believe our USP is the trust clients have in

our expertise. Spanning a wide range – from automotive & industry 4.0 to healthcare & retail, our coverage is expansive, but we ensure even the most niche categories are analyzed. Reach out to us with your goals, and we'll be an able research partner.
