They are specially designed to provide comfort during exercise or sports also sometimes these can be worn as casual fashion clothing. Increase in disposable income and rise in fitness

consciousness customers are the factors that fuel the global outdoor sports apparel market growth. These factors have increased the consumer participation in number of outdoor activities such as hiking, camping, mountaineering, cycling, canoeing, caving, kayaking, rafting, rock climbing, running, sailing, skiing, sky diving, surfing, and others.

In addition, upsurge in participation of the youth and old population in adventurous physical activities propel the demand for the sports-related products, thereby driving the growth of the outdoor sports apparel market.

However, shift in trend toward sportswear and availability of low quality and counterfeit products restrict the growth of the outdoor sports apparel market size. On contrary, the rise in demand for trendy and fashionable sports apparel leads to the launch of new products to cater to the demand for the customers. The increase in demand for trendy fitness apparel by the middle-aged individuals segment has increased in the past few years, which is anticipated to provide growth opportunities for the outdoor sports apparel market.
