

# Neo and Challenger Banks Market Size, Share, Trends, Growth Factors, Revenue Analysis, For 2020–2026

*Neo and Challenger Banks Market To Reach USD 394.64 Billion By 2026*

NEW YORK CITY, NEW YORK, UNITED STATES, September 17, 2021

/EINPresswire.com/ -- According to the current analysis of Reports and Data, the global [Neo and Challenger Banks market](#) was valued at USD 18.6 Billion in 2018 and is projected to grow at a

CAGR of 46.5% from 2019 to 2026. Factors affecting the growth of the Neo & Challenger Banks market are the favorable regulations from various government bodies globally, as well as the convenience Neo Banks offer to consumers in the form of quick account opening. The rising penetration of internet globally, specifically in developing nations like China and India will be another factor for the rise of the Neo & Challenger banks market. Adoption by millennials, micro, small and medium enterprises (MSMEs), and those having irregular incomes and earnings, embracement of ground-breaking technologies and rising consumerism are some of the catalysts for the success of neo banks. For these banks to be accepted on a larger scale, greater penetration of smartphones as well as the internet is vital. Another factor is the user comfort with digital applications and elementary knowledge of financial products and services. However, the growth of the market may be restrained due to the narrow range of products that are offered by the these Banks.

Key participants include Atom Bank PLC, Movencorp, Inc., Simple Finance Technology Corporation, Fidor Bank AG, Pockit Ltd., Ubnak, Monzo Bank Ltd., MyBank, WeBank, Holvi Bank, Hello Bank, Koho Bank, Rocket Bank, and Soon Banque.

With competition rising amongst traditional banks, new-age FinTechs, technology firms and non-banking entrants, it is yet to be seen whether the market is very much enough for these banks to grow sustainably and equitably. How the banks manage crucial impediments in terms of regulation and compliance, data and cybersecurity, unified API integration as well as expansion

Reports And Data

of products and services will be the fundamental determinants of their success.

Characteristics and offerings like accessibility, cost-effective multiple banking and financial functionalities under one umbrella, and personalization are some of the major driving aspects for neo banks worldwide. Another factor is that FinTechs are building niche solutions that are focused on blue-collar workers and the underserved needs of thin-file MSMEs thus driving the . Neobanking can work as an extension of measures undertaken to solve the challenges of financial inclusion and bundling banking services with other financial services—for example, services like opening of bank accounts for immigrants, facilitated through new onboarding procedures not based on traditional documentation of identification.
