

Global Coffee Pods Market Trends, Strategies, And Opportunities In The Coffee Pods Market 2021-2030

The Business Research Company's Coffee Pods Global Market Report 2021: COVID 19 Growth And Change To 2030

LONDON, GREATER LONDON, UK,
September 17, 2021 /

EINPresswire.com/ -- According to the new market research report '[Coffee Pods Global Market Report 2021:](#)

[COVID-19 Growth And Change'](#)

published by The Business Research Company, the coffee pods market is expected grow from \$11.19 billion in 2020 to \$13.22 billion in 2021 at a compound annual growth rate (CAGR) of 18.1%. The growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$19.14 billion in 2025 at a CAGR of 10%. The growth in the working population is projected to boost the demand for convenience products, resulting in significant demand for coffee pods.

The coffee pods market consists of sales of coffee pods and related services. Coffee pods are small single-serving coffee containers. Coffee pods reduce the time and efforts for preparing coffee, thus, they have become a popular choice for the working population and millennials.

Trends In The Global Coffee Pods Market

The companies functioning in the coffee pods market are focused on new product development in order to meet the environmental requirements and to better serve the customers. The launch of compostable pods is a leading trend in the coffee pods market. For instance, in April 2019, Club Coffee announced the launch of a compostable single-serve coffee pod, which was developed to be compatible with Nespresso Original Line brewers. The environmentally friendly coffee pods are the part of Club Coffee's commitment to introduce substitute products for single
