CEO/Kiana Webb (Joyful Moments)

“

Health and wellbeing are very important, particularly for women. We don't get enough time for self, Joyful Moments is an opportunity to escape and take a few moments for us.”

Kiana Webb

Webb currently serves as the CEO of Webb Family Enterprises (WFE), a management company that oversees numerous business ventures through the lens of pursuing parity. Kiana's strong entrepreneurial spirit has always compelled her to do more for others, yet she remains grounded and focused on the importance of self-care, as well as spiritual and personal growth. These sentiments beautifully underlie the creation and launch of Joyful Moments, a monthly box subscription geared towards personal wellbeing, and most importantly—joy!

“Being a part of WisePause Wellness was a great collaboration for me,” says Webb. “Health and wellbeing are very important, particularly for women. We don't get enough time for ourselves,

and the stress of the pandemic and the state of the world have many of us flustered and frustrated. WisePause's emphasis is on solutions for women going through a natural phase of their lives—perimenopause and menopause. This is a time when women are at the height of their careers and where stress can take precedence over their lives. They require a respite—and our product provides that respite.

Our box includes items that touch all the senses such as candles, incense, jewelry, QR codes for specially curated playlists, beauty items and more—all products provided by BIPOC women-owned businesses. My mom's favorite bible verse is 'Make a joyful noise until the Lord.' That's how I want to live and what inspired me to create Joyful Moments. We need to live our lives from a place of joy, not depletion. It is my hope that Joyful Moments encourages self-care, self-love, and wellness. And, and course, joy."
