

Solid Waste Management Market Analysis, Trends and Forecasts Report 2027

Solid Waste Management Market Size - USD 1,000.12 billion in 2019, Market Growth - CAGR of 2.4%, Market Trends - Favorable regulatory policies

VANCOUVER, BC, CANADA, September 21, 2021 /EINPresswire.com/ -- The global [Solid Waste Management Market](#) will be worth USD 1,193.88 Billion by 2027, according to a current analysis by Emergen Research. The growth of this market can be attributed to the strict government regulations regarding solid waste disposal. The increasing population growth and the rising amount of waste generated every year are expected to drive the growth of solid waste management solutions.

The growing initiatives of the government to reduce the contamination of water bodies and carbon emissions are most likely to propel the growth of the market over the forecast period. Utilization of the municipal solid waste (MSW) as fuel to generate renewable energy sources through thermal and biological techniques is projected to drive growth opportunities for the future.
