

FINALLYBRA Launches Body Bulge Under Thing Revolution With the BULGEnator™

Ladies cup-sized A-H with hips to match, breathe a sigh of relief with a new bra and panty that smoothes bulges while slenderizing and accenting curves.

VIENNA, VA, USA, September 22, 2021 /EINPresswire.com/ -- What authentically-shaped woman doesn't stand at the mirror daily and wish for a bra that shows back bulges and armpit fat the door? That day is here.

FINALLYBRA INC, has launched nine ways to rock the best boobage possible and lift one's bootie. Gaining

marketplace traction as the "terminator of body bulges," the BULGEnator™ bra and panty line have most definitely come to do what's never been done before. The new push-in, push-up bra, and high rise, high leg brief uses technology to give gals extreme comfort and genuine support.

“

It's time we serve the overlooked majority of women who can benefit from a side support bra that provides a one-of-kind solution for all shapes and sizes.”

Elizabeth Wang, Founder & CEO

Banishing side spillage and muffin tops once and for all, the products help women breathe a sigh of relief in more ways than one. Finally a bra and a panty actually do what they promise they'll do while they look good at the very same time. FINALLYBRA, indeed.

Elizabeth Wang, the Founder & CEO of FINALLYBRA INC., said of her company's mission, "I wanted to stop the unrealistic body image ideals and empower women through functionality. Our panties range from sizes XS to XXXL while the BULGEnator bra can accommodate an A or an H cup and go up to a size 48 band. It's time we serve

the overlooked majority of women who can benefit from a side support bra that provides a one-of-kind solution for all shapes and sizes.”

Using the cups and sides of the BULGEnator bra, the undergarment stops underarm bulge while it pushes in and centers the breasts. This method slims the front line of the body. The bra's

structure uses its wing fabric to even out back bulges and smoothes the back body line. Custom cleavage is achieved through a hook and eye closure between the cups, and straps are wide with anti-slip surface to prevent shoulder slipping. The garment enables multiple strap placements to cater to different shoulder widths and shapes and nine options for making it whatever type of bra is needed. For instance, it can be a strapless bra as quickly as a halter, a cross-back, cross center halter, and a one-strap bra. The BULGEnator's memory wire is also highly elastic and adapts to those times of the month when breast size fluctuates. And with a "Why didn't someone think of this sooner?" approach, the moisture-wicking, breathable bra even has open slots on the sides to slip keys, money, or a cellphone at social events.

With a high waist retro fit, the double-layered front panel of the BULGEnator panty offers unsurpassed tummy control. Sporting a flattering leg-lengthening cut, the panties also have full back coverage to control bulges in a silky soft breathable fabric that's as lightweight as it is comfortable.
