

Introducing the LumiCube 360 Jewelry Photography Light Box

Iconasys, a leading provider of 360 product photography automation tools launches the LumiCube 360 Jewelry Photography Light Box

IRVINE, CA, USA, September 22, 2021 /EINPresswire.com/ -- Iconasys, a leading manufacturer of still & [360 product photography](#) automation tools, announces the launch of the [LumiCube 360 Jewelry Photography Light Box](#).

LumiCube is a professional grade light box that is designed for shooting still & 360 jewelry photography. It includes Shutter Stream 360 Product Photography & Video Software - Iconasys' proprietary camera control, image editing and processing application. The software integrates with the LumiCube Light Box and allows users to drive the entire picture taking process through mouse clicks. The combination of an integrated software and professional quality light box simplifies jewelry photography - enabling users of any skill level to create high-quality results. In addition to ease of use, Shutter Stream 360 Software automates many product photography steps and will streamline workflow efficiencies by up to 1,000%. When using the LumiCube 360 Jewelry Photography Light Box, users can expect to:

- Create Still Jewelry Photography in Seconds
- Create Web-ready 360 Jewelry Photography in <3 minutes
- Create 360 Jewelry Videos in <30 seconds

‘Creating high-quality jewelry photography is difficult, time consuming and expensive.’ states Michael Atman, CEO of Iconasys. He continues “LumiCube 360 is a game changer – it’s a highly functional light box that will produce unrivaled image quality and unparalleled efficiencies.”

LumiCube 360 Jewelry Photography Light Box Specifications: LED Panels are fixed in the bottom, back, top left and right and will output over 27,900 Lumens at full intensity. Each panel is independently dimmable and a separate top down panel with color adjustable LED's allow users

to adjust the internal color temperature from 3,200 – 7,000K – optimal for shooting various precious metals (ex. gold, silver, platinum). LED's are rated at 97+ CRI to ensure for maximum image quality. The built-in 360 photography turntable is ultra-precise (0.04-degrees), has capability to shoot up to 8,250 frames/360 rotation, supports variable speed (10 speed settings) and eliminates vibrations and wobble through platform support bearings.

The LumiCube 360 Jewelry Photography Light Box is available for sale starting today. It is a one-time purchase that will allow users to create infinite still and 360 product images in-house (no mandatory recurring monthly/yearly fees). All purchases are backed by a full satisfaction guarantee.

About Iconasys: Iconasys specializes in Product Photography Automation Tools for Still & 360 Product Photography. Iconasys solutions are trusted by over 7,000 customers worldwide for use in [eCommerce Product Photography](#) and other web and print imaging applications.
