[Global Market Report 2021](#): COVID-19 Impact And Recovery' published by The Business Research Company, the productivity software publishing market is expected to grow from \$84.7 billion in 2020 to \$86.03 billion in 2021 at a compound annual growth rate (CAGR) of 1.6%. The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$123.8 billion in 2025 at a CAGR of 9.5%. Automation in any field would increase the efficiency and would therefore increase the profit margins.
