

# Monoclonal Antibodies Market 2021 Global Demand Areas Due to Covid 19 | Expected CAGR 10.1% to 2027

*Monoclonal Antibodies Market Size, Share & Trends Analysis Report By Source (Chimeric, Murine, Humanized, Human)*

PUNE, MAHARASHTRA, INDIA,  
September 22, 2021 /

EINPresswire.com/ -- Global [Monoclonal Antibody Market](#) is valued at USD 144.25 Billion in 2020 and expected to reach USD 282.89 Billion by 2027 with a CAGR of 10.1% over the forecast period. Increasing prevalence of cancer & other chronic diseases, growing regulatory approvals & launch of therapies and increasing research collaborations for the development of robust drug pipeline are the major factors driving the growth of global monoclonal antibodies market Over the Forecast Period.

Brandessence Market Research

Key Players for Global Monoclonal Antibodies Market Report: Some major key players for global Monoclonal Antibodies market are Abbott Laboratories, Amgen Inc, AstraZeneca plc, Bayer AG, Eli Lilly, GlaxoSmithKline Plc, Johnson & Johnson, Merck&Co. Inc, Novartis AG, Pfizer Inc., Sanofi S.A., F. Hoffmann-La Roche AG, and others.

A monoclonal antibody is an immune response made by cloning a remarkable white blood cell. All ensuing antibodies inferred this way trace back to a one of a kind parent cell. Monoclonal antibodies are utilized to develop and suppress the immune response in different medical situations and to treat different sicknesses like cardiovascular, cancer and cerebrovascular

infections. This industry incorporates foundations that produce anti-cancer monoclonal antibodies to avoid metastasis by lessening cell expansion, neuropharmacological monoclonal antibodies, immunological monoclonal antibodies, anti-infective monoclonal antibodies (MAbs), and other MAbs for individuals and animals. By exposing white blood cells to a particular antigen, monoclonal antibodies can be created. Monoclonal antibodies are antibodies artificially created in laboratory.

COVID-19 has shown a positive impact on global monoclonal antibodies market. Research during the pandemic has increased optimism in monoclonal antibodies ability to help reduce the risk of hospitalization. A number of monoclonal antibodies have shown the ability to retain activity against multiple variants of the virus. The advancement of monoclonal antibodies treatment is utilized to treat COVID-19. The acknowledgment of the urgent need for treatment accessible on a worldwide scale has empowered the fast advancement of a vast number of SARS-CoV-2 killing monoclonal antibodies (mAbs). Thus, COVID-19 disease elevated development and opportunities for key participants of monoclonal antibodies during the forecast period.

News: FDA Authorizes Monoclonal Antibodies for Treatment of COVID-19

January 21st, 2021; The FDA has approved the utilization of monoclonal antibodies for Covid-19 therapies. Monoclonal antibodies are research center made proteins that copy the immune system's ability to fight off hurtful microorganisms like viruses. Casirivimab and imdevimab are monoclonal antibodies that are particularly coordinated against the spike protein of SARS-CoV-2, intended to obstruct the infection's connection and entry into human cells. Approving these monoclonal antibody treatments might assist outpatients with keeping away from hospitalization and lighten the weight on our medical services system.

Global monoclonal antibodies are segmented on the basis of source, indication end user and region & country level. Based upon source, the monoclonal antibodies market is classified into murine, chimeric, humanized, and human. By indication, the market is divided into autoimmune disease, inflammatory disease, infectious disease, cancer and others. Based upon end-users, the market is divided into hospitals, research institutes and others.

Global Monoclonal Antibodies Market Segmentation:

By Source:

- Chimeric
- Murine
- Humanized
- Human

By Indication:

- Autoimmune Disease
- Inflammatory Disease
- Infectious Disease
- Cancer
- Others

By End User:

- Research Institute
- Hospital
- Others

Increasing Prevalence of Cancer & Other Chronic Diseases, Growing Regulatory Approvals & Launch of Therapies and Increasing Research Collaborations for the Development of Robust Drug Pipeline are Some of the Major Factors Driving the Market Growth

One of the major factors driving the growth of global monoclonal antibodies market is increasing prevalence of cancer & other chronic diseases. The cancer risk is rising quickly all through the world and more secure clinical treatment is being searched out over more conventional techniques. Possible advantages of monoclonal antibodies incorporate detecting and killing unusual cells directly, repressing cancer cell development, and conveying radioactive particles or chemo drugs to the particular cells, accordingly limiting the risk of side effects from drug while likewise advancing working of immune system. For instance; according to the World Health Organization; the worldwide cancer trouble increased to 18.1 million new cases and 9.6 million deaths in 2018. One of every five men and one out of six women overall foster cancer throughout their lifetime, and one out of eight men and one out of 11 women die from the illness.

The regions covered in Global Monoclonal Antibodies Market report are North America, Europe, Asia-Pacific, Latin America and Rest of the World. On the basis of country level, the market of global Monoclonal Antibodies is sub divided into U.S., Mexico, Canada, U.K., France, Germany, Italy, China, India, Japan, South East Asia, Middle East Asia (UAE, Egypt, Saudi Arabia) GCC, Africa, etc.

North America is Expected to Dominate the Global Monoclonal Antibodies Market

North America is expected to dominate the global monoclonal antibodies market due to the rising funding by government to increase research and development activities for cancer, rising number of product launches, regulatory support for rare diseases and presence of key players in this region. For instance; as indicated by the Centers for Disease Control and Prevention (CDC); six out of 10 grown-ups in the U.S. have a chronic disease, of which four of every 10 Adults have

at least two. For example; the U.S. Food and Drug Administration (FDA) conceded sped up endorsement to avelumab, a human monoclonal antibody, for the treatment of an uncommon infection metastatic Merkel cell carcinoma (MCC). Essentially, the U.S FDA allowed sped up approval to immunotherapy item TECENTRIQ (atezolizumab), an acculturated, designed monoclonal antibody, to treat individuals with privately progressed or metastatic urothelial carcinoma. In February 2019, AbCellera and Novartis have done a multi-target association to make an antibody-drug disclosure stage and innovation for treating clinically- relevant and neurodegenerative sicknesses.

## Table of Content

### Chapter 1 Global Monoclonal Antibodies Market: Summary And Quantitative Analysis

#### 1.1 Report Description

#### 1.2 Global Monoclonal Antibodies Market Revenue Overview

#### 1.3 Global Monoclonal Antibodies Market Revenue (Usd Billion) And Growth (%) Rate, 2015-2027

### Chapter 2 Global Monoclonal Antibodies Market: Overview And Qualitative Analysis

#### 2.1 Executive Summary

#### 2.2 Market Drivers

#### 2.3 Market Restraints

#### 2.4 Market Opportunities

#### 2.5 Market Trends

#### 2.6 Global Monoclonal Antibodies Market: Swot Analysis

#### 2.7 Global Monoclonal Antibodies Market: Pest Analysis

#### 2.8 Global Monoclonal Antibodies Market: Attractiveness Analysis

##### 2.8.1 Global Monoclonal Antibodies Market: Attractiveness Analysis By Source

##### 2.8.2 Global Monoclonal Antibodies Market: Attractiveness Analysis By Indication

##### 2.8.3 Global Monoclonal Antibodies Market: Attractiveness Analysis By End User

##### 2.8.4 Global Monoclonal Antibodies Market: Attractiveness Analysis By Regional

### Chapter 3 Competitive Analysis

#### 3.1 Global Monoclonal Antibodies Market

##### 3.1.1 Global Monoclonal Antibodies Market Revenue (Usd Billion), By Players 2018

##### 3.1.2 Global Monoclonal Antibodies Market Revenue Share (%), By Players 2018

### Chapter 4 North America Monoclonal Antibodies Market Analysis

## 4.1 North America Market Snapshot

4.1.1 North America Monoclonal Antibodies Market Revenue And Growth Rate (%), 2015-2027.

4.1.2 North America Monoclonal Antibodies Market Revenue (Usd Billion) Overview, By Country, 2015 – 2027

4.1.3 North America Monoclonal Antibodies Market Revenue (Usd Billion) And Growth Rate (%), 2015 – 2027.

4.1.4 North America Monoclonal Antibodies Revenue (Usd Billion) Overview, By Source, 2015-2027

4.1.5 North America Monoclonal Antibodies Market: Attractiveness Analysis By Indication, 2015-2027

4.1.6 North America Monoclonal Antibodies Market: Attractiveness Analysis By End User, 2015-2027

## Chapter 5 Europe Monoclonal Antibodies Market Analysis

### 5.1 Europe Market Snapshot

5.1.1 Europe Monoclonal Antibodies Market Revenue And Growth Rate (%), 2015-2027.

5.1.2 Europe Monoclonal Antibodies Market Revenue (Usd Billion) Overview, By Country, 2015 – 2027

5.1.3 Europe Monoclonal Antibodies Market Revenue (Usd Billion) And Growth Rate (%), 2015 – 2027.

5.1.4 Europe Monoclonal Antibodies Revenue (Usd Billion) Overview, By Source, 2015-2027

5.1.5 Europe Monoclonal Antibodies Market: Attractiveness Analysis By Indication, 2015-2027

5.1.6 Europe Monoclonal Antibodies Market: Attractiveness Analysis By End User, 2015-2027

## Chapter 6 Asia Pacific Monoclonal Antibodies Market Analysis

### 6.1 Asia Pacific Market Snapshot

6.1.1 Asia Pacific Monoclonal Antibodies Market Revenue And Growth Rate (%), 2015-2027.

6.1.2 Asia Pacific Monoclonal Antibodies Market Revenue (Usd Billion) Overview, By Country, 2015 – 2027

6.1.3 Asia Pacific Monoclonal Antibodies Market Revenue (Usd Billion) And Growth Rate (%), 2015 – 2027.

6.1.4 Asia Pacific Monoclonal Antibodies Revenue (Usd Billion) Overview, By Source, 2015-2027

6.1.5 Asia Pacific Monoclonal Antibodies Market: Attractiveness Analysis By Indication, 2015-2027

6.1.6 Asia Pacific Monoclonal Antibodies Market: Attractiveness Analysis By End User, 2015-2027

## Chapter 7 Latin America Monoclonal Antibodies Market Analysis

### 7.1 Latin America Market Snapshot

- 7.1.1 Latin America Monoclonal Antibodies Market Revenue And Growth Rate (%), 2015-2027.
- 7.1.2 Latin America Monoclonal Antibodies Market Revenue (Usd Billion) Overview, By Country, 2015 – 2027
- 7.1.3 Latin America Monoclonal Antibodies Market Revenue (Usd Billion) And Growth Rate (%), 2015 – 2027.
- 7.1.4 Latin America Monoclonal Antibodies Revenue (Usd Billion) Overview, By Source, 2015-2027
- 7.1.5 Latin America Monoclonal Antibodies Market: Attractiveness Analysis By Indication, 2015-2027
- 7.1.6 Latin America Monoclonal Antibodies Market: Attractiveness Analysis By End User, 2015-2027

## Chapter 8 Middle East & Africa Monoclonal Antibodies Market Analysis

### 8.1 Middle East & Africa Market Snapshot

- 8.1.1 Middle East & Africa Monoclonal Antibodies Market Revenue And Growth Rate (%), 2015-2027.
- 8.1.2 Middle East & Africa Monoclonal Antibodies Market Revenue (Usd Billion) Overview, By Country, 2015 – 2027
- 8.1.3 Middle East & Africa Monoclonal Antibodies Market Revenue (Usd Billion) And Growth Rate (%), 2015 – 2027.
- 8.1.4 Middle East & Africa Monoclonal Antibodies Revenue (Usd Billion) Overview, By Source, 2015-2027
- 8.1.5 Middle East & Africa Monoclonal Antibodies Market: Attractiveness Analysis By Indication, 2015-2027
- 8.1.6 Middle East & Africa Monoclonal Antibodies Market: Attractiveness Analysis By End User, 2015-2027

## Chapter 9 Competitive Analysis

### 9.1 Company 1.

- 9.1.1 Company Basic Information, Manufacturing Base, Sales Area And Its Competitors
- 9.1.2 Company 1. Total Company Revenue 2015-2018
- 9.1.3 Company 1. Total Company Revenue, By Segment Of Business 2015-2018
- 9.1.4 Company 1. Total Company Revenue, By Region 2015-2018
- 9.1.5 Company 1. Global Monoclonal Antibodies Product Category and Description
- 9.1.6 COMPANY 1. Recent Activity 2015-2019
- 9.1.7 Main Business/Business Overview
- 9.1.8 Business Strategy
- 9.1.9 SWOT Analysis

### 9.2 Company 2.

- 9.3 Company 3.
- 9.4 Company 4
- 9.5 Company 5
- 9.6 Company 6
- 9.7 Company 7

Chapter 10 Market Research Findings & Conclusion

Chapter 11 Research Methodology

- 11.1 Research Process
- 11.2 Primary Research
- 11.3 Secondary Research
- 11.4 Market Size Estimates
- 11.5 Forecast Model
- 11.6 Who is This Report For?
- 11.7 USP's of Report
