

Reign Financial International (RFI) preparing for the company's next chapter – Growth

PORTLAND, OREGON, UNITED STATES, September 22, 2021 / EINPresswire.com/ -- Reign Financial International - A premier Client-Centric Financial Solutions Firm heavily focused on large and small scale financial transactions, announced today that the company is poised for growth and is expanding its operations.

Following three years of creating a highly respected presence supporting Small and Large Cap clients, globally, Reign Financial is now adding to and repositioning its strategy to further build on these successes. The company recently released information that it intends to stay the course in support of small-cap and micro-cap, as well as its solutions for large-cap clients. Due to successes for such clients, the company has started implementing plans for expansion. The company had recently put a halt on projects for a few weeks to reorganize and focus its energies on restructuring and creating new business models to increase its offerings for its international client base - it is now ready for the next chapter.

As CEO Giorgio Johnson explained: "Driven by our client-centric values, we

are always looking to meet the increasing sophistication and demands of our clients' needs through expanded offerings and solutions. Additionally, our growing deal flow requires us to reorganize and expand to focus our organization around these new demands and opportunities."

The company continues to stress its uniqueness and prides itself on being fluid in creativity and its innovative approach to client solutions as being its foundation. In a finance world where clients are often pushed to fit a

standardized box, RFI's strategy is to create the individualized box that affords their clientele the opportunity to meet their goals.

Johnson detailed further: "While we will continue to build on our very strongly performing Small Cap options and opportunities, as well our Large Cap client base, we will be driving our lending solutions and property development, among other expansions." The company stated there would be further announcements to this effect in the coming months.

In a phased process, Reign Financial will create a physical presence in key cities in the USA, Europe and Australasia.

Additionally, Reign is in the process of forming a Foundation to promote the social values of the founders.
