

Premium P2A and A2P Messaging Market Size Worth USD 73.2 Billion By 2026 – Reports and Data

Premium P2A and A2P Messaging Market Size – USD 57.1 billion in 2018, Market Growth - CAGR of 3.6%, Market Trends –Increasing demand for mobile marketing.

NEW YORK, NY, UNITED STATES,
September 22, 2021 /

EINPresswire.com/ -- The major

contributing factor for the growth of

the market for Premium P2A and A2P messaging can increase in smartphone penetration, increasing the scope for enterprises to reach their customers at an individual level.

Reports And Data

The [Premium P2A and A2P Messaging Market](#) is expected to grow from USD 57.1 billion in 2018 to USD 73.2 billion by 2026, at a CAGR of 3.6% during the forecast period. Increasing demand for mobile marketing and end-user application developers, increasing mobile banking services, no need of data connection, penetration of mobile phones, and increased profits for mobile network operators are some of the driving factors of the market.

Various government regulations, increasing mobile SMS spam, phishing, and malware and illegitimate (grey) routes affecting telecom operator's profits may be major restraining factors for the premium P2A and A2P messaging market.

Key players within Premium P2A and A2P messaging market are CLX Communications (Sweden), AT&T (US), Tata Communications (India), Infobip (UK), Mahindra Comviva (India), SAP SE (Germany), Dialogue Communications (UK), Beepsend (Sweden), Twilio (US), and Tyntec (Germany), among others.

Further key findings from the report suggest

- The Premium P2A and A2P messaging market are segmented by end-user application type into

inquiry related services, customer relationship management, notification & alerts, authentication service, promotional & marketing service, voting & entertainment, pushed content services, interactive messages and others (surveys, appointments, and updates). The authentication service segment is expected to witness the highest growth of approximately 3.9% CAGR during the forecast period, because of the use of mobile devices for sharing personal information over the web for purposes such as bank transactions, email logins, and others.

- The Premium P2A and A2P messaging market are segmented by traffic national and multi-country. A multi-country segment is expected to grow with the highest CAGR of approximately 4.2% CAGR during the forecast period, since it yields high profits for the mobile network operator, holding the largest market share in IT & telecom, travel, tourism, and social site authentication.

- The Premium P2A and A2P messaging market is segmented by messaging platform into a cloud API messaging platform and managed messaging platform. The cloud API messaging platform provides a simple and effective two-way communication channel for enterprises, thus dominating this segment with a market share of USD 34.26 billion in the base year.

- The Premium P2A and A2P messaging Market are segmented by industry vertical into BFSI, telecom & IT, media & entertainment, travel & tourism, retail & e-commerce, healthcare, Logistics & Utilities, and government. The segment which is expected to witness a growth of approximately 4.8% CAGR during the forecast period, is the BFSI, the reason being the use of A2P and P2A services for the customers, regarding transaction detail, alerts, delivery updates, and verification.

- The Premium P2A and A2P messaging Market are segmented geographically into North, America, Europe, Asia Pacific and Rest of the World. APAC is to witness the highest growth of approximately 3.9% CAGR during the forecast period, due to the adverse adoption of Premium P2A and A2P messaging services and solutions by enterprises in this region.
